

Senate Fight Seen On Tax Extension; House Passes Bill

Revenue of \$4 Billion Involved; \$8 Billion Debt Ceiling Hike

Washington —A rousing senate tax fight appeared in prospect today over a bill to extend for another year levies which bring in \$4 billion of annual revenue.

The measure, passed by the house yesterday, also provides an \$8 billion temporary increase in the national debt ceiling for the year ahead. This year's temporary \$10 billion increase expires June 30.

Several senators have announced plans to try to use the house bill as a vehicle for major tax changes, both to cut some revenues and also to pick up some.

Chairman Harry F. Byrd (D-Va.) said his finance committee would meet soon on the legislation, but no date has been fixed. He plans to try to get the bill acted on there without public hearings.

Byrd is expected to seek to get the bill through without change, in line with the Eisenhower administration's recommendations, but several other committee members are ready with amendments.

Changes Indicated
Under senate rules, the bill will be wide open to amendment. The house considered the measure yesterday under a rule barring any floor changes, but the members nevertheless showed considerable dissatisfaction with it by their votes.

The house agreed only by a 202-181 tally even to take up the bill, and passed it 222-174.

Many legislators said their "no" votes reflected a feeling that congress this year should remove the 10 per cent federal tax on local telephone service and cut in half the 10 per cent passenger tax affecting train, bus and plane riders.

The senate last year voted to kill both of these levies effective immediately. But in conference with the house, it was decided the effective date for wiping out the telephone tax would be made July 1, 1960, and the passenger levy would be reduced to 5 per cent also effective July 1 this year.

Ike Asked Extension
However, President Eisenhower asked this session for another year's extension of both levies at current rates, and the bill before the house yesterday reflected his views.

Several members of the senate finance committee are working for changes.

Sen. Robert S. Kerr (D-Okla.) said he would move in the committee again this year to let the telephone tax die July 1.

Sen. George A. Smathers (D-Fla.) plans to ask that the cut in the passenger levy be allowed to take effect at the same time.

Sen. Eugene J. McCarthy (D-Minn.) said he would seek to add \$325 million to annual revenues by offering an amendment to repeal the 4 per cent credit allowed stockholders on their dividend income. The administration is against this proposal.

Several senators are considering a variety of other tax amendments.

Mrs. Audrey Whetzel of La Puente, Calif., who is losing her sight, tearfully embraces the daughters she thought her eyes might not see again, at Los Angeles International airport Wednesday night. The girls are, Vickie, 10, left, and Patricia, 9. They went with her to her native Coventry, England, early last year when she returned there hoping for a cure for her progressive blindness. She returned to California in January of this year, but did not have money to bring the girls who stayed with relatives. An American television program paid for the girls' flight to their mother.

State to Spend Money It Does Not Now Have

\$9 Million Will Go for College Building Program

BY JOHN WYNGAARD Post-Crescent Staff Writer

Madison — The state building commission Wednesday approved the spending of \$9,100,000 it does not now have for the construction of five major structures at state institutions of higher education.

Although it is almost certain that the commission will float a bond issue for the amount, members were reluctant to put such plans on the record. They talked about the possibility of getting the money in other ways. But the condition of the state treasury and the cost of state government operations are such that only a political miracle could produce the money through tax revenues.

The fact that a new state political campaign is beginning and that the political parties have quarrelled about state debt policy apparently contributed to the skittishness of the Democratic and Republican members of the commission.

Speeding Stolen Car Kills 4 Men in Washington

Washington —A restaurant owner and three employees were killed early today when their automobile was struck by a stolen station wagon fleeing at 80 miles an hour from a police car.

Another employee was seriously hurt and the 19-year-old driver of the stolen vehicle was critically injured in the shattering head-on crash on Military road in the northwest section of the city.

Veteran accident investigators called the tragedy the worst Washington accident in their memory.

The restaurant owner was Constantine J. Poulos, 55, known as "Brother Gus." He operated a restaurant in the northwest area.

The others killed were the restaurant cook, Julian Thompson, 58; the bartender, Edward F. Johaneck, 43; and another employee, Charles V. Williams, 44.

The fourth restaurant worker, John W. Norris, 16, was in serious condition with multiple injuries.

Police identified the operator of the stolen car as George Edward Watson.

Rockefeller's Statement Also Criticizes Numerous Administration Policies

New York —New York Gov. Nelson A. Rockefeller has challenged Vice President Richard M. Nixon to declare himself now on vital issues, not after the GOP national convention. The governor also assailed numerous administration policies.

In a move that caught political friend and foe by complete surprise, the draft-available Rockefeller said yesterday:

"I find it unreasonable in these times that the leading Republican candidate for the presidential nomination has firmly insisted upon making known his program and his policies not before, but only after, nomination by his party."

Neither the nation nor the GOP, Rockefeller said, can march into the future holding a banner "whose only emblem is a question mark."

Nixon and Rockefeller may meet face to face here tomorrow.

Nixon Rockefeller

Both are scheduled to appear at a luncheon honoring Prince Philip of Britain.

Rockefeller apparently briefed President Eisenhower at a breakfast conference at the White House before flying here and releasing his 2,700-word statement.

The statement contained only praise for the president, but noted that his service was ending.

Proposes Changes
Rockefeller criticized the administration's handling of defense, education, medical and labor-management programs, and urged a reorganization of the whole government structure especially in view of the U2 spy plane incident.

There was no comment from Eisenhower or Nixon. Nixon conferred privately with the president yesterday afternoon after a meeting of the national security council.

Rockefeller also announced he would head the New York state delegation to the GOP convention in Chicago.

The governor never mentioned Nixon by name, but he took direct aim at one of the vice president's major campaign topics — his role in settling the 1959 steel strike. Rockefeller termed the settlement a surrender to the forces of inflation.

World Position Weakens
In urging new approaches to foreign policy, Rockefeller said: "Our position in the world is dramatically weaker today than 15 years ago."

One month before the Geneva disarmament conference, Rockefeller declared, the United States had no prepared position. "The machinery of free government can and must be geared to do better than this," he added.

Opinions differed widely among Republicans as to the

Rep. John Byrnes, Green Bay, Wis., was among the defenders of the vice president.

Byrnes, chairman of the house Republican policy committee, told a newsman:

"I think Mr. Nixon's conduct to date has been in keeping with his position as vice president. When he becomes the nominee I would expect him to conduct himself as such and discuss all of the issues fully and forthrightly. But presently his duty is to his office of vice president."

Sen. John Sherman Cooper (R-Ky.) said yesterday "if he feels this way about it, he ought to become an active candidate. Let Rockefeller and Nixon debate the issues before the convention and if

Typhoon Kills At Least 40

Over 4,000 Homeless in Hong Kong; Red China Also Hit

BY ROY ESSOYAN

Hong Kong —A typhoon slammed into communist China today after striking a crippling blow at this refuge-crowded British colony.

At least forty persons were killed in Hong Kong, 23 were missing and 29 injured, according to preliminary police estimates. The casualty toll was expected to rise as rescue workers dug into the wreckage.

More than 4,000 were reported homeless, and property damage was expected to run into the millions of dollars.

Local authorities said it was the worst disaster in Hong Kong since the 1937 typhoon, which tossed ocean liners onto the beach.

The royal observatory reported gusts of 118 miles an hour whipped the colony at the height of the storm in the early hours today. An estimated 16 inches of rain fell in the past 24 hours.

3 Die in Head-on Crash at Green Bay

Three Passengers Seriously Hurt; Five County Deaths Within Week

Post-Crescent News Service

Green Bay — Brown county's worst traffic crash in almost four years claimed the lives of three persons and seriously injured three others northeast of Green Bay early this morning. All are from Green Bay.

Killed, apparently outright, were two young persons from one of the two autos which were demolished in the accident and a Green Bay tavern operator who was driver of the other car. They are:

Sharon Marie Steeno, 19; Leon Jerome Lotto, also 19; and Alvin Vander Linden, 47.

Double County Toll

Their deaths doubled the county's 1960 fatality total in just the few seconds it took

for the apparently head-on collision to occur. Of the six deaths now recorded this year on county roads outside Green Bay, five were lost within the one week ending this afternoon following single fatalities last Thursday and early Sunday.

The three deaths and one in Sauk county Wednesday raised Wisconsin's 1960 traffic death toll to 303, compared to 279 on this date a year ago.

Gary Gray, 13, route 4, Baraboo, was killed Wednesday night on Highway 136 two miles west of Baraboo when he was struck by a car while walking on the road.

New York Has 3rd Try to Keep Plants Open Despite Strike

New York —The city's third subway fire in less than 48 hours filled a tunnel in Brooklyn with smoke early today and knocked two lines out of service for hours.

The train was standing at the President street station on the Nostrand avenue line when the fire was discovered in the tunnel nearby.

Hartford, Conn. —A strike by thousands of United Aircraft corporation workers moved into its second day today with the company determined to keep its plants open and seeking a court order to stop mass picketing.

Israel's Refusal Expected

Argentina Demands Eichmann's Return

BY SERGIO MACKAY

Buenos Aires, Argentina

Israel appears certain to reject a demand from the Argentine government for the return of Adolf Eichmann, the former Nazi official captured in Buenos Aires by Jewish agents and whisked away to face charges of mass murder of Jews during World War II.

Argentina in a note to the Israeli government last night charged the seizure violated its national territory and warned that it would complain to the United Nations unless the 54-year-old ex-storm trooper is handed back this week.

"Once the indicated restitution (of Eichmann to Argentina) is accomplished," the Argentine note said, "the turn or for punishment of Israeli government's way is

open to request his delivery through means contemplated by international law."

The Argentine ambassador to Israel, Rodolfo Garcia Arrias, was called home, and there was a possibility that Israel's ambassador to Buenos Aires, Areh Levavi, would be asked to leave Argentina. It was not expected that Argentina would go so far as to break off diplomatic relations with Israel, at least for the time being.

Argentina also demanded punishment of the band of Jewish volunteers the Israeli government said had tracked Eichmann down after a 15-year manhunt and spirited him to Israel.

An Argentine protest to Israel had been expected, but its terms were considerably stronger than had been anticipated. However, there appeared no possibility that Israel would comply with the demand for Eichmann's return or for punishment of those who captured him.

Predict Approval For Defense Bill

Sens. Chavez, Saltonstall Say \$40,166,097,000 Measure Will Get Committee Okay Friday

Washington —AP— Two senators who helped prepare a \$40,166,097,000 defense money bill predicted today the senate appropriations committee will approve it Friday without major changes.

That forecast came from Chairman Dennis Chavez (D-NM) and Sen. Leverett Saltonstall (R-Mass), a senior member of the defense appropriations subcommittee. That group added \$828 million to the amount previously voted by the house.

"It's a good bill now because it puts back several major programs the house cut out and reduces some things the house added which our military experts say were not needed," Saltonstall said in an interview.

Chavez said he also expects the full committee to accept the bill without major change, "but there may be some efforts on the senate floor to add additional funds."

Add Some Items

The total reached in two days of voting by the Chavez subcommittee is \$850 million more than President Eisenhower's revised budget requested, but it added to the house bill a number of items

originally asked by the administration and cut out by the house.

Saltonstall and other navy-minded senators were happy about restoration of \$293 million to build another large attack aircraft carrier. The house deleted these funds.

At the same time the senate group accepted \$241 million added by the house to speed up construction of Polaris Ballistic missile submarines and approved \$42 million of a \$100 million house increase to step up research and development for navy antisubmarine warfare.

Biggest increase was restoration of \$400 million the house had slashed by an across-the-board 3 per cent reduction in funds for procurement of missiles, aircraft and other military hardware.

Dropped from the bill was \$115 million the house had added to step up an airborne alert of the strategic air command. This action retained the \$85 million the administration asked.

Extra funds for modernization of the army were held to \$37 million instead of \$207 million listed by the house.

Under the senate bill the air force would get \$17,339,836,000 or \$496 million more than voted by the house; the navy \$12,203,465,000 or \$303 million more; the army \$9,431,496,000 or \$27 million more and the office of the secretary of defense \$1,191,300,000 or \$1,300,000 more.

The law provides for a fine of \$25 to \$100.

The Gall Bladder An Important Organ

The gall bladder is a small but highly important organ. Bile is manufactured continuously by the liver and emptied into the gall bladder which acts as a reservoir. Here water and certain valuable materials found in the bile are absorbed by the blood to be used again by the body, and bile becomes highly concentrated. During digestion the bile is forced into the intestine and aids in the digestion of fats, also it has a bactericidal action and lubricates the intestine.

The gall bladder has a chemical and nervous control both under the central nervous system. Pressure on the nerve by certain vertebrae can cause it to function abnormally, cause the formation of gall stones, or predispose it to infection. Adjustments by a Chiropractor will restore normal function and under ordinary circumstances will expel the debris into the intestine.

ROK Military Condition Bad, Report Says

Secret Letter Tells of Plunder Of U. S. Supplies

Washington —AP— A secret government report last February characterized the condition of South Korea's armed forces as deplorable and said U. S. supplies were being stolen.

That conclusion, echoed in accusations hurled at the government of Korean President Syngman Rhee before it toppled last month, was reached both by a committee set up by the U. S. commander in Korea and by the general accounting office.

It was stated in a letter dated Feb. 26 from Comptroller General Joseph Campbell to Chairman Clarence Cannon (D-Mo) of the house appropriations committee.

The secret label was removed when Rep. George W. Andrews (D-Ala) brought out the letter last month at hearings by an appropriations subcommittee on the administration's foreign aid program.

Campbell said the commander's group in Korea "substantiated our findings and pointed out that the deplorable state of logistics which appeared to exist in the Korean forces could not be corrected through short-range or sporadic effort on the part of the U. S. military advisers or without complete cooperation by the Korean government."

Logistics entails the quartering, supply and movement of troops.

Among other things, Campbell said, GAO inspectors had found "material furnished to the Korean forces was being diverted and pilfered." He also said satisfactory controls were lacking over local currency provided by the U. S. economic aid program to support Korea's military budget.

Gen. Williston B. Palmer, the defense department's director of military assistance, acknowledged "there are some awfully smart thieves over there." But he said he did not believe the theft of rounds and resale of military equipment was universal.

Palmer also testified improvements had been made in the last two years. He read a cable in which Joseph Lippman, director of GAO's far east branch at Tokyo, spoke on Feb. 23 of "very substantial results from aggressive advisory efforts to improve ROK logistics."

Russ Neighbors Would See Aid Cut as Retreat

Palmer Testified May 17 That Countries Might Say U. S. Had Lost Enthusiasm

Washington —AP— The Pentagon's director of military assistance says neighbors of Russia threatened with Soviet reprisals would regard a cut in U. S. aid as a U. S. retreat.

Gen. Williston B. Palmer gave that appraisal in testimony made public today by a house appropriations subcommittee which is considering the Eisenhower administration's request for \$2 billion of military help in its \$4 billion foreign aid program.

Palmer appeared May 17, the day the summit meeting formally collapsed. Soviet Premier Nikita Khrushchev already had threatened retaliation against nations that permitted such sorties as the U2 flight over Russia from within their borders. Khrushchev had sent protests to Turkey, Pakistan and Norway.

Asked Opinion Rep. Silvio R. Conte (R-Mass) asked Palmer's opinion of a sharp cutback at a time when Russia was warning of dire consequences to the countries for supplying facilities to the United States. A drastic reduction, Palmer said, would indicate "a loss of confidence."

24 Youngsters in Finals Of National Spelling Bee

Washington —AP— Two dozen tip top spellers—16 girls and 8 boys—compete today in final rounds of the 33rd annual spelling bee to determine a new national champion.

The 24 waded successfully through 10 rounds of difficult words Wednesday while 49 others of the record 73 entrants were spelled down. All are regional champions and represent some 70 communities.

Since the start of the national bees in 1925—with several years out for World War II—the girls have defeated the boys two to one in winning top national honors.

Previous Contestants Four of the five contestants who competed in previous national spellings survived the first day's rounds. They are Janet Harrington, 13, East Haverhill, Mass.; Rodger Cunningham, 12, Kenova, W. Va.; David Castaldi, 13, Jersey City, N. J.; and Henry Feldman, 13, Oak Ridge, Tenn.

The fifth repeater, John Nelson, 10, Houston, Texas, was spelled down in the second round. Nelson, youngest of the 73, slipped on a "desirable," by putting in an extra "e."

The 24 survivors of the first day's rounds were managing in the end some tongue-twisters as dichotomy, flagitious, eucalyptus, chimerical, antediluvian, and suspiration.

Both Alaska and Hawaii were represented in this year's championship bee.

Hawaiian Drops Out Hawaii's speller, Gail Sachiko Nakamura, 13, of Kapaa, Kauai, dropped out in the third round, but Laurel Pratt, of

Helicopter Helps Plant Phone Poles Stretch Wire

Scranton, Pa. —AP— The Bell Telephone company of Pennsylvania has planted 40-foot utility poles and stretched wire from the air by helicopter.

The experiment, carried out successfully, was done in an inaccessible mountain area in the state's northeastern section, near Lake Como, that borders New York.

The job was to get 32 poles along a 2-mile stretch. All the poles will be in and wired later today. The work started Wednesday.

Holes were dug by men on the ground. Then a twin-engine helicopter, aided by strong winds, dropped in the poles at the rate of one every five minutes.

Wire dropped out of the aircraft and was attached by linemen mounted on the poles.

Actors, Theater Unit Keep Touch by Phone

New York —AP— Key members of Actors Equity association and the League of New York Theaters planned today to continue their telephone conversations in efforts to end the week-long Broadway stage show blackout.

Representatives of the union and the league, the producers group, held separate and secret meetings Wednesday and kept in touch with each other by telephone. No progress toward settling their contract dispute was reported.

Official negotiations have not been held since a collapse in the talks Monday night.

Live Polio Vaccine Has Good Results in Nicaraguan Epidemic

Russian Researchers Also Favor American-Made Virus in Report

Washington —AP— Live polio vaccine showed good challenge of a full-scale polio epidemic, it was reported here today.

A group of Russian researchers also was on record after a 1958 live vaccine, along with criticism of the Salk killed-virus vaccine, among the vaccinated was only one-fifth as great as among the non-vaccinated, he reported.

But the head of the public health service said there still is not enough proof of the safety and effectiveness of the live virus vaccine to license it for general use in the United States.

Surgeon General Leroy E. Burney said in an interview "I would love to be able in good conscience to license our live vaccine now as I feel it would be a boon to other nations... but I cannot."

"I couldn't clear the live virus vaccine now because I do not feel there is proof of its complete safety and of its effectiveness, especially over long periods of time."

Favorable Report The more favorable report on the live virus type which is given orally came from Dr. Juan Jose Alcocer of the Pan-American health organization. In a report prepared for the second international conference on live polio virus vaccines, he said the live type costly to produce on a large scale.

The Russian doctor said extensive tests showed "the complete harmlessness of the live vaccine." He termed the Salk vaccine "expensive and insufficiently effective... had met with success in what scale."

Farm Bureau Backs General Sales Tax

Federation Newspaper Asks For Agriculture Exemptions

Post-Crescent Madison Bureau
 Madison — The Wisconsin Farm Bureau federation, largest and probably most influential organization of farm operators in the state, today came out for a general sales tax with some exceptions as a means of relieving the economically distressed farmer of some of his property tax load.

Arguments for a sales tax, now being discussed gingerly in state political and policy-making circles, were given prominent display in the current edition of the Federation's news organ. An accompanying editorial argued that the sales tax would be a means of equalizing the present discriminatory tax position of the farm proprietor.

The Federation's position is likely to echo loudly in this campaign year, since the revision of state tax policies looms as a major campaign issue.

Asks Revision Pledge
 Gov. Gaylord Nelson has attempted to avoid a commitment on tax policy, pending the report of his advisory commission on tax revision. He has said that he will ask for a general tax revision pledge in his Democratic party's campaign platform this year.

The so-called advisory "blue ribbon" commission named by the governor a year ago has not yet endorsed a sales tax in specific terms, but its

conclusions and recommendations thus far indicate that it will do so.

Philip Kuehn, Republican candidate for the gubernatorial nomination, has said he favors a sales tax, but only if it is explicitly tied to a program of real and personal property tax stabilization or reduction.

Exempt Farm Items
 The latter is apparently the appeal of the sales tax to the Farm Bureau.

The farmers could save on their property tax bills, now disproportionately high, that would exempt farm production items and services used by agriculture, said the organization.

By means of a 3 per cent retail sales tax, said William Kasakaitas, legislative counsel for the group, the farmers would pay about 7 cents to each dollar of sales tax income against about 15 cents they now pay out of each Wisconsin property tax dollar collected.

"Unless property tax relief is given to the state's farmers, through revision of our tax structure, we may be setting the stage for an unprecedented wave of tax delinquency in the face of dropping incomes," the organization of farmer added.

Apparently timing its declaration for maximum effect in the general campaign for basic tax revision the Federation asserted editorially in its newspaper reaching some 30,000 individual farm subscribers today:

"We can't long expect property owners to carry more than half — 51 cents out of every tax dollar — of the taxation load. Now is the time to set up a broadly-based tax plan, so that in future years taxpayers will not be subject to the inequities of the present plan."

New \$360,000 Armory Set For Oshkosh

State Appropriates \$90,000 as Its Share Of Construction Cost

Post-Crescent Madison Bureau

Madison — Fox Valley military training facilities will be increased by the construction of a \$360,000 Wisconsin National Guard armory in Oshkosh next year.

The state building commission Wednesday appropriated \$90,000 as the state's 25 per cent share of the estimated cost of the structure.

The Oshkosh armory will be in two units on land that has been deeded to the state by the city.

Biggest Program

The biggest armory construction and improvement program in the history of the state militia has been undertaken in the last several years under the stimulus of the federal grant in aid program.

In earlier eras militia units customarily drilled in rented facilities or in municipal buildings. With the additional stores of equipment required today, better and more commodious quarters were demanded and they have been provided in several dozen construction projects.

Defeat in Referendum Doesn't End School Attachment Issue

1962 Deadline Faces Badger, Triangle, Other Districts Without High Schools

BY BONNIE BARSTOW
Post-Crescent Staff Writer

Voters in Appleton and in Badger and Triangle school districts have turned down proposals by the Outagamie and Calumet county school committees that the rural districts be attached to Appleton, but the issue is still not settled.

"After June 30, 1962, all territory within the state shall be included in school districts operating high schools," states Bill 48s, which became Section 40.035 of the state statutes last summer.

This means that by that date Badger and Triangle and other elementary school districts must be attached to an integrated or high school district or build their own high school.

Waiting Period
Since attachment to Appleton was defeated, the same proposal may not be reconsidered by the county school committee for one year.

During that year the committee can, however, prepare and establish a different plan if it so desires. Some people have mentioned the possibility of attachment to Hortonville Union High school district, which extends to the west borders of Badger and Triangle. Hortonville is more than 10 miles from Badger and Triangle, however, and Appleton High school is only about a mile from the rural boundaries and 2½ miles from the two rural schools.

The elementary school districts could build their own high school to comply with the law, but even if all the non-high school districts in Grand Chute combined to build a school there would be only about 160 students in grades 9 to 12. And if the city should take any of that area, the new school's enrollment and tax base would be smaller.

Referendum Before 1962
After a year, the county committees again could order Badger and Triangle districts attached to Appleton.

Any district reorganization order, like the ones concerning Badger and Triangle made by the county school committee in April and the Twin Willows attachment ordered by the county school committee of June 1, could be turned down by a referendum election. The referendum could be called by a petition signed by 500 voters in the proposed district, 10 per cent of the district's voters residing in cities and villages or 10 per cent of them living outside cities and villages.

If the independent districts are not in a district operating

It would be retroactive in effect to July 1, 1962.

Within 60 days after receiving an order attaching territory to the city for school purposes, the city council "may file a petition with the city clerk. If such a petition is filed, the annexation would not be effective unless approved by a referendum election during that month would not be subject to referendum, but it could be appealed to the state school superintendent.

The annexation ordinance would become effective in 90 days unless within that time 10 per cent of the voters in the territory to be annexed file a petition with the city clerk. If such a petition is filed, the annexation would not be effective unless approved by a referendum election during that month would not be subject to referendum, but it could be appealed to the state school superintendent.

Unique Law
If the electors of the territory vote in favor of consolidation, then the city shall conduct a referendum . . . for the purpose of effecting a consolidation," the statute continues. If the referendum on total annexation fails, "the territory shall nevertheless become a part of the city for school purposes," the law states. Officials of 18 Wisconsin cities have protested this provision, but the legislature refused to change it in its spring session.

The school district law is the only one which gives cities the power to start annexation proceedings. Ordinarily, the first move must come from residents of the outlying district.

Time Near to Check Property Assessment

**Boards of Review
For Protests to
Meet in July**

Annual board of review time is drawing near and property owners can begin to check property assessments soon.

The board of review, set July 11 by state statute, is a time when property owners can protest property tax assessments. A protest filed after a tax bill is received is not valid.

The board, however, often adjourns to a later date because the assessment rolls have not been completed.

Check Value
Real property includes land, buildings and improvements on land and buildings. Here is the procedure every property owner should follow if he feels his property assessment is out of line:

The owner should check the value placed on his property by the assessor. It is the property owner's responsibility to do this. Many property owners assume their local assessor will notify them of an assessment change from the previous year. This is not true.

An assessment can be checked by contacting the assessor and checking the roll when it is open for inspection.

Look for Errors

Check first for errors if the assessment is well above other years. After determining the property is correctly described and the computation correct, the owner should compare his assessment with similar property in his assessment district.

If the owner still feels the property is disproportionately assessed, he should contact his local board of review and request a hearing. A written protest should be made. The property owner should clearly and concisely state his views in a logical manner.

If, after the board review acts on the petition, the property owner still feels the assessment is unjust, he can appeal the decision. This may be done through the state department of taxation, circuit court or logical governing body.

Nod Given to Road Program

**Safety Plan Put
Before State by
Insurance Institute**

Madison — A group of state officials have given tentative approval to a highway safety program which, private industry sponsors said would "cost Wisconsin some money" to bring to a successful conclusion.

The offer of direct aid came from the Insurance Institute of Highway Safety, a private agency representing about 500 casualty insurance firms.

At a meeting of the governor's coordinating committee of state officials, Russell I. Brown, institute president, said the agency was offering Wisconsin "concept of a road safety program." He indicated the institute was prepared to offer some financial help in the event the program is accepted.

Brown said the institute's first step would be to build up the public demand for improved highway safety.

Need Leadership
"As I see it," he said, "the state officials must give the guidance and leadership in an effective statewide safety program but the citizens must have the prime responsibility for its success. It is our hope we can help them achieve this goal."

Wisconsin is one of three states offered help by the institute. The others, Arizona and Florida, have adopted the program.

The committee was asked to study the proposal and make a decision within a few days. Final approval was withheld after several committee members voiced misgivings about sections of the report dealing with the state's safety improvement needs.

The report calls for such things as adding 300 men to the Wisconsin state traffic patrol over a three-year period, and compulsory driver training of all motorists under 18.

The Wisconsin legislature defeated recently a proposal to add 50 men to the patrol.

Building Commission Finances Precarious

University Promised Funds for Bay Center,
But Not Exactly How They'll be Obtained

Post-Crescent Madison Bureau
Madison — The \$165,000 extension doesn't yet know exactly how it will do so. That was the promise given university officials Wednesday as the commission scraped the bottom of its financial position is now pre-

treasury for the financing of a variety of urgently presented projects.

Final plans for the Green Bay center building were approved by the University regents earlier this week, and the city of Green Bay and Brown county are now expected to complete the financing and call for construction bids. Occupancy is hoped for by September of 1961, which means that the furniture and incidentals must be on order early next year, it was explained.

While the commission's financial position is now pre-

Weyauwega — The police department received 28 complaints during May. They found seven business places open, made nine trips out of town and answered one larceny complaint.

Four juvenile cases were investigated, 10 dog complaints, two accidents, one of which was a hit-and-run, were

investigated and four 5-day tickets were issued. Fourteen 5-day tickets were checked for other departments.

Also checked were one drunken driver, one arterial violation, two unlawful turns, one driving with no license plates and no title, one operating vehicle while driver's license was revoked, one driving without a muffler,

one permitting an unauthorized person to drive, two disorderly conduct and three investigations made assisting other departments.

carious, members informally noted that the legislature will again be in session next January and can consider a special appropriation.

Or the commission can anticipate its next annual appropriation of construction funds, starting July 1 of next year, in planning the payment for the supplies and furniture that the university will be buying at about that time, it was suggested.

Future Escapes Not Easy At Green Bay Reformatory

Post-Crescent Madison Bureau
Madison — It will be more difficult for inmates of the state reformatory near Green Bay to escape over the walls in the future.

With the authorization of the state building commission, the state division of corrections this summer will begin work. Improvements will be the replacement of the guard towers atop the masonry wall surrounding the institution, the improvement of lighting within the grounds and the removal of the so-called "bullpen", where vehicles entering and leaving the reformatory pass through two protective gates.

Sanger Powers, head of the corrections division, told the commission Wednesday that

the replacement of the guard towers cannot be safely deferred.

The improvements will cost about \$125,000, the amount released by the building commission out of its strained budget.

"We owe it to the surrounding community to improve our security arrangements and to make it more difficult to escape," said Powers, who was formerly superintendent of the institution. "We've been asking for this for a long time."

The most recent and embarrassing escape of an inmate took place last February, when the inmate was not discovered until six hours later when the inmate was apprehended in Wausau.

Cortisone Used to Control Lupus, a Collagen Disease

By Joseph G. Molner, M. D.

"Dear Dr. Molner: My husband has disseminated lupus erythematosus of long standing. He takes cortisone to control it. Is there any known cure, or new treatment for it? — Mrs. R.M."

Some years ago, and not too many at that, lupus erythematosus was regarded as a rare disease. Now we know better. It's one of the collagen diseases, meaning that it at-

tacks the fibrous tissues. (Rheumatoid arthritis is another collagen disease, but there are important differences.)

You pronounce it LOOP-us (erri-theme-a-TOE-sus, and we'll refer to it today as just lupus, although it is true that there is another disease with the same first name, called lupus vulgaris.)

Rash on Nose
The lupus we are discussing often has a characteristic sign, a butterfly-shaped rash over the bridge of the nose. That is merely a sign; it is not the important part of the disease.

can be fatal. Yet on the other hand, it can continue for many, many years, often with long periods of quiescence, as in the case of R. M.'s husband.

There may often be (in addition to the rash, which may also appear elsewhere on the body) fever, muscular aches and joint distress. Unlike rheumatoid arthritis, lupus can manifest itself in other organs of the body.

Cause Unknown
The cause of lupus is not known, and hence there is no assurance that it can be cured. However, as I said earlier, it often can remain under control for indefinitely long periods even if not cured.

There is no new treatment other than the use of steroids — cortisone and kindred — not the important part of the dications. However, within the last few weeks there has been one

interesting development—ancure. Still, every particle of accurate test for the disease, information that we can gain which is something we have about any disease is ultimate not had in the past. The new ly helpful in understanding it test was announced by scienc and treating it.

Lupus is still a baffling di of Health, and they tell us it sease but we are learning der is simple and quick, and ac more about it as time goes curately picks out cases of on.

Kentucky Joins the Sales Tax Parade

On July 1 Kentucky will become the thirty-fifth sales tax state in the country when it puts into effect a new three per cent sales and use tax recently levied by its legislature.
The tax will be paid through monthly returns of the retailer, who will be permitted to deduct two per cent from the yield as compensation for his costs, according to a pattern that has become common in the administration of this levy.
There may be something familiar, a kind of an echo, in the fact that the legislature of the state simultaneously repealed its income surtax, which was graduated from 10 to 30 per cent, and that the flat credit allowed as a personal exemption for each spouse and dependent under the income tax has been increased from \$13 to \$20.
Those who have perused the Madison news dispatches lately covering the deliberations of a revenue study commission, chosen by Gov. Nelson with bipartisan support of the legislature, know that a sales tax also is being studied as a balance wheel for the strained Wisconsin fiscal system, and that some of the Kentucky modifications also are being favorably received.
It seems unlikely that a sales tax of the usual weight can be grafted onto the present Wisconsin property and income tax scheme, given the realities of human nature and politics, without some concession in the form of relief of the existing levies.
Nor would such an aggregate of new revenues be needed in Wisconsin today regardless of what may be the case in the future. In fact, the newly disclosed prosperity of the state treasury appears to have postponed at least for another election

campaign the consideration of tax revision that the long-range situation requires. The mere fact that business in Wisconsin is prospering and the state treasury is profiting correspondingly should not be accepted as a solution to the state's financing problems.
Wisconsin has, over the past 10 years, given some attention to the possibility of adopting a sales tax as a balancing factor in the Wisconsin revenue system. Again and again the political leaders of the state have postponed serious consideration of this problem depending upon the rising prosperity of the times to tide the state over. Even as they did so, many of them have acknowledged that it is unwise for any state to depend as heavily upon the income tax for revenue as Wisconsin does.
The danger of course is that business in Wisconsin may take a downturn at some time in the future just as it has been constantly climbing in recent years. The downturn could leave the state in a serious financial position. In fact, a sudden downturn could be disastrous. Since the state has picked up enough revenue due to prosperity to offset about \$20,000,000 of expected deficits in the past years, it is certain that the downturn could be just as severe in the opposite direction.
In spite of the fact that this problem exists there is no evidence that it will be discussed in a realistic manner in the present state of prosperity. Nevertheless the day is sure to come when this will be a wise topic for candidates and there is every evidence now that the average citizen has done more thinking and is more willing to face up to a logical settlement of the matter than many of the men who serve him in an elective capacity at Madison.

Mr. K's Invitation to Cuba

When Khrushchev makes his visit to Cuba, possibly accompanied by one of Red China's bandits, Chou En Lai, there may be some evidence as to just how enthused the Cuban people are about the increasing signs that Fidel Castro has been selling them out to Communism.
There were plenty of protests when Mikoyan visited Havana and he ran for cover when someone shot off a machine gun. Mikoyan is a realist and he knows he isn't the most popular person in the world. Certainly Castro will have things somewhat better organized for Khrushchev.
In the meantime, Castro and the puppet Cuban president, Oswaldo Dorticas, have been slathering on the anti-American sludge. Dorticas, on a South American tour, has been charging that the United States was responsible for the explosion of the French ship in Havana harbor last winter, that American planes are violating Cuban air space, and that all American property owners have been reimbursed for their confiscated property. As the sharp and timely note from the U. S. State Department pointed out, all three charges are lies. There is even evidence that Castro hired

the planes flown over Cuba to give him some propaganda ammunition.
There is small likelihood that many Latin American leaders believe Dorticas or are enthused enough about Khrushchev to extend the invitation. In recent months, Castro's fiasco of freedom has been apparent to these people. They have regularly turned down invitations to visit Havana, have politely boycotted conferences, and have criticized Castro's attempts to involve all Latin America in his hate-America campaign. It has been as obvious to many of them as to North Americans that the Cuban people are little better off under Castro than they were under Batista. There is just a different group filling both cells and firing squads.
Khrushchev's visit is a direct attempt to take advantage of the Red tinge in Cuba to spread Communism to the Western Hemisphere. The U. S. should continue to contradict Cuban charges against us and stop making any attempt to soothe Castro. And, despite crowds maneuvered like TV audiences, Khrushchev may find his reception in Cuba just as full of chill and disillusion as those he received in Asia during last winter's tour.

De Gaulle Gets Another Boost

The elections in Algeria last month provided considerable evidence of the strength of President De Gaulle's program for self-determinism. It also showed that, while an apparently honest and clean election was carried on in a country torn by terrorism and war, the rebels and their followers have not yet been discouraged.
Out of the 452 seats at stake for the departmental general councils, candidates pledged to De Gaulle's program won 298. The right-wing extremists, who demand complete integration of Algeria in France, won only 87. The rest went to candidates campaigning on purely local, non-political issues in some of the small towns and rural areas.
In the future, the conservatives are expected to have less weight in determining policies, not so much in the councils. since there is little political authority there, but in efforts to slow down De Gaulle's program. The downtown sections of Algiers and Oran, once political weathervanes for

the country, no longer can claim to represent the majority opinion.
Although 56 per cent of the registered voters went to the polls, about the average in Algeria, some sections closely followed the orders of the nationalist rebels to boycott the election. In the hometown of the premier of the rebels' provisional government, 90 per cent stayed home; in the famed Casbah, only 30 per cent voted. There was terrorism all over the country during the three days of election but only one candidate and four voters were killed. This is relatively peaceful. But the rebel strength in the small towns was shown by the abstentions, and contradicts the claims of the army that rebellion now has been pushed back into the remote mountains.
The election should mean more attempts by President De Gaulle to end the rebellion without paying much attention to the conservatives. It also indicates that Algeria eventually may choose definite ties to France within a government of local independence.

Follow Rules of Courtesy When Hiring Guest Speaker

From The Kewanee Enterprise
Sooner or later most all of you readers will be called on to get a speaker for a certain occasion. When you do — he will be more at ease if you follow a few courtesy rules.
When you approach him — first of all be specific. Tell him how long he is expected to speak and what sort of a group he will address. Explain the type of audience and the number who will attend.
Be frank about your finances and what your group is able or willing to pay. He may, if he is local, or if he is a political figure, come without charge. But he should know what your plans are financially. If he does come without charge, courtesy demands if he is traveling any distance, that you

offer expenses. This includes transportation, lodging and food. If he is coming as a representative of some national group it may be that his organization will finance his trip, and he will want no allowance. But you should ask.
When the speaker arrives someone should meet him — and arrange for his lodging. And then don't be too hospitable and rush him from cocktail party to reception so that he doesn't have a half hour to go over his notes and wash his hands.
Arrange for a lectern, and tell him there will be one. Every speaker wonders about this and is happy to be reassured. Don't expect him to stand with his notes propped against the water glass and nowhere to put his

Summit Failure Recalls Warning By Sen. McCarthy Back in 1955

Editor, Post-Crescent:

After listening to and reading about the whys and wherefores of the U-2 incident and Summit failure — and nothing else — for the last few weeks, it is refreshing to come across an article by one who vigorously opposed the first Summit meeting (Geneva) way back in July of 1955. Five years ago.
It is all the more enlightening in view of today's happenings, especially the Summit failure.
It contains more truth and common sense in its few paragraphs than all the mouthings of the so-called "news analyst experts" on radio and TV who have been bombarding us with their views of the situation. I quote, below —
"Far better that our diplomats stay at home and make the Communists prove by deeds that their intentions have changed. By meeting them at the Summit, we simply present the Communists with a sounding board off which their false peace propaganda can reverberate throughout the world.
"Let me briefly summarize the reasons the Big Four meeting is bound to benefit the Communists: 1. We are going to negotiate about areas the free world now controls, we are going to talk about what we may give away, instead of what we may get. 2. Even should we get reciprocal concessions from the Soviets — a quid pro quo — we know they will not keep their half of the bargain. 3. Even if there are no concessions, we will suffer a crushing propaganda defeat by appearing to be uncooperative by refusing to act upon our own advice to the world that Communist objectives may have changed.
"... We cannot coexist with Communism... We cannot meet Communists halfway. They do business only on their side of the street.
" We cannot satisfy Com-

munist by serving up just one more morsel. Their appetite grows with eating.
" These truths about Communism are as valid when the Russian Bear is simulating slumber as when he is baring his fangs. Today, the world has been lulled into a false sense of security by Communist peace overtures. It follows — not that the world situation has improved but that it is more dangerous than ever before. When

we turn a receptive ear to these illusory offers, it is a sure sign that the peril has deepened.

"... There is not one chance in 10,000 that Dulles, Eisenhower, or anyone else can persuade the Kremlin to change the course Marxists have been following since 1948. It is a course that has been pursued right down the center for 107 years. It is the path to world revolution. The goal has been reaffirmed many times: by Lenin in 1917, by Stalin in 1947, and by Malenkov less than a year ago."

Abe Called Fourth-Rate Speaker

100 YEARS AGO
Quoted from the Appleton Crescent for the week of June 9, 1860.

The New York Herald is filled with the choicest "slangwhanging" on the occasion of Lincoln's nomination. The Herald says:

"The conduct of the Republican party in this nomination is a remarkable indication of small intellect growing smaller. They pass over Seward, Chase and Bates, who are able men, to take up a fourth-rate lecturer, who cannot speak good grammar, and who, to raise the wind, delivers his hackneyed, illiterate compositions at \$200 a piece.

"The public will remember that this peripatetic politician visited New York two or three months ago when, in return for the most unmitigated trash, interlarded with clumsy and coarse jokes, he filled his empty pockets with dollars coined out of Republican fanaticism.
" If, after he becomes

President, the public finances should fail, he can set out upon a lecturing mission through the country, taking Horace Greeley along with him. He may thus replenish the collapsed treasury. If people will not exchange their loose dimes for the instruction or the pleasure derived from his eloquence, they may be induced to part with some of their cash in the cause of patriotism, and to save the nation from bankruptcy — an event which is very likely to happen if the Republicans get hold of the nation's purse."

Fee for Using Parks Coming Sooner or Later

BY JOHN WYNGAARD

Madison — The park fee bill in the recent legislature fell as a casualty to the partisan rivalry of the Republicans and the Democrats, but the incident had a considerable significance in spite of the failure of the proposal.
Not only did it show clearly in the successive roll calls that the next legislature is almost certain to tap the park user for a part of the improvement budget in the parks system that he seems to want, but it also will underline in a serious way the concept of beneficiary assessments of the cost of some public services.
Many thoughtful students of affairs political are becoming convinced that in an era of burgeoning costs of basic services, those which are essential for the welfare of the community as a whole, there must be more reliance upon the assessment principle for the borderline functions of government, those which are desirable, but not essential when lined up against the fundamentals.

The state now collects hundreds of special fees for special benefits available to those who want them. It is in the public interest to license and regulate the professional activities of the physician, the nurse, the lawyer, and other professional practitioners. But they are required by law to pay fees for their examinations and for their qualifying licenses, as a means of supporting the regulatory boards and commissions. Barbers, well-drillers, undertakers and many others do so also, without special objection.

Thus also the legislature apparently is on the verge of deciding that when a person

THE IDEA

has been used for many years in both state and municipal administrations in Wisconsin. The curb and gutter work before your home was doubtless assessed upon you as the abutting property owner, rather than upon the community as a whole.

The issue of assessing for park use is comparatively simple and comprehensible. The best proof that the public is ready for it was provided when legislators in their roll calls repeatedly showed support of the idea in a campaign year when they are usually timid about such matters.
The more important applications of the idea will be in the infinitely more costly services where there are immediate and obvious beneficiaries, on the one hand, as the students at the state-supported colleges and universities, and assumed or theoretical beneficiaries, like the anonymous off-campus taxpayer, on the other.

In an era when the number of students is multiplying, and the number of taxpayers in their productive years is shrinking, when the clamor for other tax-paid services shows no sign of diminution, when the quality and scope of educational opportunity are infinitely richer than in earlier times, there will be those who will ask that the traditional concept of student-taxpayer ratio of budget responsibility be reappraised.

Snakes are deaf. That's what Dr. Thomas E. McGill of Williams college, Williamstown, Mass., says.

His opinion blasts a theory we have long held. We supposed snakes could hear, else how would they know where a pedestrian was going to step when he hikes through the woods? And how do they know one is picking berries unless they heard his approach?

Maybe snakes can't hear, as Dr. McGill says, but somehow they're getting the message of where to find the fearful foot-slogger every time he strays out of town.

State to Spend Money If Does Not Now Have

"dummy corporation," which was fashioned by earlier Republican regimes and has been continued under the Nelson Democratic administration because the governor has been unsuccessful in his efforts to amend the state constitution to eliminate the prohibition against a direct state bonded debt. The state now has about \$60,000,000 in such "dummy corporation" bonds outstanding.)

The major projects planned include a \$2,500,000 social studies building on the Madison campus of the University of Wisconsin, a fine arts building at \$1,600,000 at the University of Wisconsin-Milwaukee, a \$2,300,000 mathematics building on the Madison campus, a \$1,500,000 new library at the state college at Oshkosh, and a \$1,000,000 laboratory school at the state college in River Falls.

Oshkosh Library
E. R. McPhee, director of state colleges, said plans for the Oshkosh library are finished and the state can call for construction bids immediately. Occupancy would probably be in the 1963 academic year. The existing library space at Oshkosh will be converted into classroom use.

The commission said the schools should call for construction bids and that final financing arrangements will be made when the prospective costs are known definitely.

Committee Hopes to Extend Land Transfer

Nixon's Views Asked Before Convention

CONTINUED FROM PAGE 1

while he had not read the governor's statement, he would not object to a contest for the GOP nomination. "If there is one," Morton said, "I'll see to it that the convention is run as fairly as possible."

Democratic National Chairman Paul Butler, had this comment: "Just a hurried perusal indicates that the governor is critical of the Eisenhower-Nixon record in a great many particulars in which the Democratic party itself has been critical."

More For Defense
"It would seem that Gov. Rockefeller agrees with the Democrats that it is time for a change in Washington," Rockefeller's statement also called for:

1. An increase of \$3 billion in spending "for immediate defense needs" and a \$500 million civil defense program with "a more tightly organized department of defense."

2. A policy of compulsory arbitration in labor disputes which endanger the national welfare.

3. Federal aid for school construction and scholarships.

4. Medical care for the aged through existing social security plans rather than the subsidy plan recommended by Eisenhower.

5. Progress in implementing

the U.S. supreme court's decision against segregated schools.

6. An overhaul of farm programs, economic expansion through tax concessions and elimination of featherbedding in both labor and management.

Criticizes Democrats

Rockefeller said he realized that it was not conventional in politics "to mention lapses in one's own party," but he said new spokesmen for the GOP must "declare now..." precisely what they believe and what they propose to meet the great matters before the nation.

As for the Democrats, Rockefeller said the leadership was confused and the party was split on civil rights.

Rockefeller's closest reference to Nixon in his statement was to "the leading Republican candidate" for the presidential nomination.

The governor never has said he would back Nixon for the presidential nomination—only that he would support the GOP nominee.

Last weekend, Rockefeller said Nixon has served as vice president with skill and courage. On several occasions, the governor has referred to "my good friend, Dick Nixon." However, there has been no marked cordiality between the two.

Won't Answer Questions
Rockefeller read his statement at a closed-door meeting of state Republican leaders before giving copies to waiting newsmen.

The governor refused to answer any questions on the statement, and left immediately for memorial services at Riverside church for his father, John D. Rockefeller, Jr., who died last month.

Rockefeller's statement in reference to Nixon was written by Emmet Hughes, who wrote the 1952 "I will go to Korea" speech credited with helping elect Eisenhower president the first time.

Hughes served on Eisenhower's personal staff until 1956. He had spent 13 years with Time, Inc., until last March 10, when he joined Rockefeller's camp as senior public relations adviser to the Rockefeller family.

Other key advisers to the governor are L. Judson Morhouse, New York Republican state chairman; George Hinman, a Binghamton, N.Y., lawyer; Dr. William J. Roman, Rockefeller's secretary and former graduate school dean at New York university; and the governor's four brothers: David, Laurence, John D. 3rd, and Winthrop.

survivors lay seriously injured from last week's fatal accident were:

Denis Splitzger, 20, identified as driver of the young people's auto, who has a compound fracture of his right leg and a brain concussion; Marie de Grave, 19, fractures of both legs, nose, and collar bone and cuts and bruises; and Robert Van Pay, 20, head injury.

The triple fatality occurred shortly after 1 a.m. on Highway 57 just north of its intersection with County Trunk T in the rural town of Green Bay. It took place on a straight and level stretch of the road but a portion of the highway which is extremely bumpy with a temporary gravel surface while under repair. The highway still is officially open for vehicle travel while rebuilding is in progress.

Nixon is nominated, as I believe he will be, Rockefeller should openly and vigorously support him."

Sen. Thomas H. Kuchel (R-Calif.) said he has urged Nixon in the past to speak out on issues, but added "the vice president is a member of the administration and, in the main, the president's record will be the basis for this year's presidential campaign."

Sen. George D. Aiken (R-Vt.) said "Mr. Nixon ought to speak out before the convention on both national and international issue." Aiken also said he did not approve of Rockefeller's criticism and saw no possibility that Rockefeller could win the GOP presidential nomination.

Rep. H. Carl Andersen (R-Minn.) said "I don't think he should speak out until after he is nominated." House Republican Leader Charles A. Halleck of Indiana declined comment.

On the Democratic side, House Majority Leader John W. McCormack of Massachusetts said "Mr. Nixon should state his position on public questions before our nation. A candidate for the presidency should not run in a political vacuum."

Sen. Francis Case (R-SD) commented, "That puts a little spice into the situation. Rockefeller's criticism and maybe we'll have a livelier convention."

Figures Show Suburbs Grow At Rapid Rate

Report From 27
Leading Centers
Point to Shift

Washington —(A)— Preliminary figures for 27 of the nation's larger population centers indicate that suburbs have been growing six times as fast as cities in the past 10 years.

While the record of the 27 areas may not prove absolutely typical, it pointed up a well established migration to suburbia that will be measured exactly after final 1960 census figures are available.

An Associated Press canvass today covered population centers which were among the first for which both city and metropolitan area statistics were available. Scattered through all sections of the country, they showed this 10-year record:

Population Gain
The 27 cities had a population gain of 6.6 per cent — up 1,243,294 to 20,026,946. During the same decade, the suburbs around these cities had an increase of 41.4 per cent — up 4,787,479 to 16,328,177.

Of the 27 cities, 11 lost population between 1950 and 1960 as residents moved from old, crowded sections into the outlying areas. All the metropolitan

tan areas showed sizable population gains.

Shrinking cities on the list were Baltimore, Detroit, Jacksonville, Fla., Jersey City and Newark, N. J., New York City, Philadelphia, Providence, R. I., Richmond, Va., Rochester, N. Y., and Worcester, Mass.

Philadelphia, for example, dropped below the two-million mark — from 2,071,605 to 1,954,086 — while Detroit showed an even sharper loss — from 1,848,568 to 1,678,613.

The count in New York City is continuing but census officials there expect a final total of about 7,770,000 compared with the 1950 level of 7,891,957.

Metropolitan Area
Even in these major cities, the metropolitan areas showed significant increases. The Detroit area increased from 3 million to 3½ millions, the New York area from 12,900,000 to 14½ million and the Philadelphia area from 3,671,000 to 4½ millions.

Cities among the 27 which showed major population gains included Atlanta, Charlotte, N. C., Columbus, Ohio, Des Moines, Indianapolis, Milwaukee, Memphis, Norfolk, Va., Seattle, Tampa, Fla., and Wichita, Kan.

Some increases were due in large part to the annexation of new territory. For example, Atlanta, showed a 10-year population gain of 155,682 to 486,996. However, officials attribute about 90,000 of the increases to enlargement of the city's boundaries.

Other cities benefited from new industries through the expansion of defense facilities. Norfolk, Va., a defense center, grew by more than 64,000 during the decade to 277,000. What's more, another 60,000 may be added later when the city is credited with navy men and merchant seamen berthed in that busy port on April 1 — the census date.

Norfolk's population growth, coupled with a drop in Richmond's total from 230,310 to 218,028, has made Norfolk the biggest city in Virginia.

Fined for Conduct
Menasha — Max Wolfe, 20, 649 Elm street, Neenah, Wednesday was fined \$10 and costs in Police Justice Arthur J. Ales' court after pleading guilty to disorderly conduct. He was arrested after a scuffle outside a Chute street restaurant early Wednesday.

With the 12 Appleton playgrounds set to open Monday, recreation department workers met Wednesday to put the finishing touches on the summer schedule. Seated from left are Lawrence Witzke, summer playground director; Lloyd Koehnke, of the recreation department staff, and Carol Miller. Standing from left are Fred Jungers, Daril Riley and Patti Wink.

'Lemon-Loving' Housepainter Captured, Had 11 Wives

San Francisco —(A)— After a name was listed as William E. Christiansen asked Yates if he was Frank E. Curtis, who took seven wives in succession and at least 11 wives. They said he had four names and a polygamy warrant from Portland, Ore., when they called on the painter. His self, went to his bathroom, climbed out a window, dropped from the third floor to a porch and ran off into the darkness.

Six carloads of policemen searched the neighborhood for three hours. Three shots were fired as they caught glimpses of the loping lover, darting in and out of alleys, climbing trees and then dropping back to the ground as the officers scurried past.

He was finally caught hiding behind a bush, across the street from his house. Finally booked and jailed.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxative, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite, and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. ODRINEX costs \$3.00 and is sold on this GUARANTEE: If not satisfied for any reason just return the package to your drug-gut and get your full money back. No questions asked. on the Portland polygamy warrant, the man was identified as Frank Gratto, 38. Christiansen said he had three known aliases—Yates, Curtis and William Damay.

In addition to bewildered Mercedes, Gratto was suspected of leaving seven wives in Portland, one in Oakland, one in Berkeley, and another in Sacramento.

Gratto, in jail, said: "I'm a victim of meeting women who turned out to be no good. They all turned out to be lemons."

Superior Man Becomes Richer
Los Angeles —(A)— Mr. Mary Ahrens, 74, died last December. Her husband, John, 80, a retired lumberman, died less than a month later.

Then, for four months, their old sedan stood in front of their home. Police finally impounded it, sold it as junk to cover storage costs.

Junkmen, dismantling it, found an envelope behind the rear seat Wednesday. It contained \$6,750 in General Motors stock and \$3,475 in matured savings bonds, officers said.

Police learned that a son, T. E. Ahrens, lives at 2439 Hughitt street, Superior, Wis. A newsman there called the home and was told: "We aren't saying anything to anyone."

Use Water Sparingly In Vegetable Cookery

Most women drown their vegetables first, then stew them until they almost become nutritionless weeds. Nothing harms vegetables quite as much as cooking them for a long time in a great quantity of water. The best results are always obtained by cleaning and cooking tender, young produce with the smallest amount of water and cooking only until just tender with as little stirring as possible.

Waterless pan cooking, pressure cooking, steaming in a double boiler or on a trivet in a closed kettle are the best ways to allow the steam from the water in the vegetables themselves to tenderize without devaluating them.

For the most flavorful and valuable vegetables it's necessary to first select the best produce available and then cook them properly. Here are a few pointers on how to buy and cook some of the vegetables that will be plentiful.

Squash, Cabbage

Summer squash is fresh if you press your finger nail against it and it sinks in easily. There should be no moldy or brown spots. Summer squash can be pared and seeded and then steamed covered in a strainer over boiling water until tender.

Cabbage... look for firm heavy heads. Contrary to the old idea that cabbage has to be cooked for hours the new method calls for shredding it finely and cooking it in boiling water for only seven to eight minutes. It should be tender but crisp.

Asparagus... whether green or white select those with tightly closed tips and tender stalks. Before cooking cut off the lower part of stalks. Tie asparagus in bunches and stand them upright in deep stewpan or bottom part of double boiler with lower ends in one-half cup boiling water. Cover tightly (inverted top of double boiler can be used) and cook about 12 minutes until tender.

Cauliflower... look for compact shape, creamy color and surrounding bright green leaf stalks. Before cooking cut off the tough end of the stem, remove the leaves and soak in cold salted water, head down for 15 minutes. Drain it and either cut up into flowerettes or keep whole. Use a deep saucepan with a closely fitting lid and pour in only enough boiling water to cover the bottom. Place cauliflower on trivet in pan and steam it for 15 to 20 minutes, less if cut up into flowerettes.

Artichokes... the small green ones are most tender and have a better flavor. Don't store them. Buy only as needed. Soak in cold water for thirty minutes before cooking or hold by stem and dip quickly several times into deep bowl of salted water. To cook, artichokes should be placed upright in only 1 1/2 inches of boiling water.

Corn... when buying strip back husks and examine for signs of worms. Milk should exude on puncturing kernels. To store remove only outer husks retaining thin inner layer until cooking time. Drop each ear slowly so as not to disturb boiling into one inch boiling water, add a tablespoon of sugar, cover and boil rapidly until tender, from four to 10 minutes.

Food Columnist Wins Good Friend Award

Edith M. Barber, noted nutritionist and food writer for the Appleton Post-Crescent, was a recipient of the annual Bon Ami award for outstanding home economics this week.

Miss Barber was the choice of the nation's women's interest editors for Miss Barber the "Good Friend" award, in recognition of her contributions in the field of home economics throughout her career. Others receiving 1960 awards include Eleanor Roosevelt, Lotte Lehman and Billie Burke.

Miss Barber is the author of several books on nutrition and food planning. She is a graduate of Columbia university where she later taught. She resides in New York City, where she is active in writing and nutrition studies.

Lemon Prune Whip

Even the simplest of desserts can be long on flavor. Try Lemon Prune Whip and see. Prepare a package of instant lemon flavored pudding according to package directions; let stand until thickened. Fold drained, pitted and quartered canned prunes into pudding. Spoon into individual dessert dishes. Sprinkle each dish with graham cracker crumbs.

Spiced Milk Shake

To give milk shake a different twist add, one-eighth teaspoon ground allspice to each cup milk used and beat in one scoop chocolate ice cream.

Hearty Potato Soup makes fine noonday eating. The soup is seasoned with onion and bacon fat and garnished with crumbled bacon and parsley.

Washday Blues Fade When Soup's on Menu

BY EDITH M. BARBER

Before the days of laundromats and washing machines, "blue Monday" was a dreaded ordeal — especially in cold weather when fingers almost froze hanging clothes outside to dry, or both kitchen and laundry space had to be used.

Often, less care in the preparation of the noonday meal was the rule, but appetites would be well satisfied when a hearty soup was the main item. In households where baked beans and brown bread furnished the usual Saturday night supper, the remainder was put to use in the preparation of a delicious soup.

Instead, potato soup might be chosen, well seasoned with onion and bacon drippings and topped with crumbled bacon. It was a treat for all. Monday became known as Soup Day instead of Wash Day. We like these old-fashioned recipes for occasional use, even though we can choose among so many good canned soups that need but to be diluted and heated before serving.

With crackers — and plenty of them — salad or relish, and dessert that may be the remains of a Sunday cake,

we will have a satisfying meal.

Hearty Potato Soup

- 4 cups diced pared potatoes
- 1 cup chopped onion
- 2 cups boiling water
- 1 teaspoon salt
- 2 cups milk
- 1/2 teaspoon pepper
- 1 tablespoon bacon fat
- 3 slices crisp bacon
- Chopped parsley or chives for garnish

Cook potatoes and onions in the boiling water and salt until very soft. Remove from heat and beat mixture until smooth. Add milk, pepper and bacon fat and reheat. Crumble one-half slice bacon over each serving. Garnish with chopped parsley or chives.

Baked Bean Soup

- 3 cups cold baked beans
- 6 cups water
- 1 medium onion, sliced
- 2 stalks celery
- 1 1/2 cups canned tomatoes
- 1 tablespoon chili sauce
- Salt
- Pepper
- 2 tablespoons butter
- 2 tablespoons flour

Combine beans, water, onion, celery and tomatoes, and simmer over low heat about 30 minutes, until beans are very soft. Force mixture through a sieve, add chili sauce, season with salt and pepper, if necessary, and reheat. Cream butter and flour together and stir into hot mixture, and bring to boil.

The Tail Gate of a Station wagon can mean a picnic in style. Spread a cloth, unpack lunch and open cans or bottles of ice-cold beverage for a memorable day in the fresh air. The beauty of a station wagon picnic is that it may be held en route to some place as well as in a favorite park or lake spot.

The Literary Cook

Wine Improves Flavor of Foods for Restricted Diets

"The Low-Sodium, Fat-Controlled Cookbook," by Alma Smith Payne and Dorothy Callahan, authors of "The Low Sodium, Fat-Controlled Cookbook," a complete and updated revision of their previous success, "The Low-Sodium Cookbook,"

As an incentive, the authors point out that wine, used in conjunction with restricted cookery, can increase pleasurable eating, no matter how it is used.

From experience, they write: "There is really no trick to cooking with wine. All you have to do is master a few simple principles and have an adventuresome spirit about restricted cookery. At one time you may want to follow tested recipes, but in many cases you won't need a recipe."

Measure a small amount of wine and add with other seasonings and taste-test to your liking. Wine, so used, acts as a flavoring only, so you can feel free to use it, teetotaler or not."

For those whose doctors recommend a low-sodium or a low-fat diet, or for anyone whose bathroom scales indicate that calorie-cutting is in order, the book offers authoritative, sympathetic help. Each recipe is followed by a listing of the amounts of sodium, total fat, saturated fat, and calories in each serving.

Typical of the lively flavor even severely restricted diets can achieve under the guidance of the authors, is this wine-flavored drop cookie—yielding only 86 calories each.

- Spiced Wine Cookies
- 2 cups sifted all-purpose flour
- 2 teaspoons low sodium baking powder
- 1 teaspoon cinnamon
- 1/2 teaspoon nutmeg
- 1 egg (or 2 egg whites)
- 1-3 cups light brown sugar
- 1 cup vegetable oil
- 1 cup California Muscatel
- 1 cup chopped walnuts
- 1 cup sun-dried raisins

Mix and sift first four ingredients. Beat egg; add sugar and oil. Stir until well blended. Add sifted dry ingredients to egg mixture alternately with wine. Stir in walnuts and raisins. Drop from teaspoon onto lightly oiled baking sheet. Bake in 400-degree oven, 10 to 12 minutes. White Port or Sherry may be substituted for Muscatel. Add one to two tablespoons coconut may be substituted for nuts and raisins if saturated fats are not restricted.

Spanish Rice Casserole Good Choice for Those Busy Days

BY HAYDN S. PEARSON

I am a casserole fan, and especially enjoy those combinations that can be hot up the next day. Seems as though the re-heating brings out additional flavor. This is a casserole that can be constructed in the morning and kept until baking time in the afternoon, if you want a supper dish ready when you come in from a PTA or Art Club meeting.

Cook one cup long-grain rice in two and a half cups boiling water over low heat. Use one teaspoon salt. Keep rice covered while cooking. Fry two strips bacon cut in small pieces. Take out the bacon and fry one medium onion sliced and one half a medium-size green pepper in the bacon fat. Have onion and pepper cooked but not browned.

Add cooked rice to onion and pepper and mix. Add one can stewed tomatoes — the kind which has onion, celery and green pepper mixed with the tomatoes. Add one can tomato soup. Blend all. Add one to two tablespoons of small pieces of sharp cheese, and four sliced stuffed olives.

Pour the mixture into a 2-quart casserole. Sprinkle bacon pieces over the mixture. Cover generously with buttered crumbs. Bake at 350 until dish is piping hot.

This is tangy, flavorful and filling, and with a quarter of a juicy apple pie, a chunk of gelatin salad and a cup of honest coffee, makes a very satisfying meal.

Macaroni Pudding Prepared With Eggs

The Spanish have an interesting way of making a macaroni pudding with eggs.

First make a well-flavored tomato sauce: a short-cut way is to saute a large sliced onion in two or three tablespoons of olive oil until onion is soft, then add a family size can of tomato sauce or a 1-pound can of peeled tomatoes and simmer until the sauce is smooth and thickened; season to taste with salt, pepper or herbs.

Meantime, cook one-half pound elbow macaroni; blend cooked macaroni with tomato sauce. Beat separately yolks and whites of four eggs; add one-half teaspoon salt and blend together.

In 2-quart casserole arrange layers of macaroni and sauce with beaten eggs; top dish with one-fourth cup grated Parmesan cheese. Bake at 350 degrees for 20 minutes. Makes six servings.

Ordination of 7 Fox Cities Area Priests Set for Saturday

Seven young priests from the Fox Cities area will be ordained by the Rev. Stanislaus V. Bona, bishop of the Green Bay diocese, Saturday.

They are among 17 men of the diocese who will enter the Catholic priesthood at ordination ceremonies at 10 a. m. Saturday in St. Francis Xavier cathedral, Green Bay.

The following men will celebrate their first solemn high masses at their home parishes June 12 or June 19:

Gerald T. Bouressa, son of Mr. and Mrs. Frank Bouressa, 1716 W. Reeve street.

Thomas L. Keller, son of Dr. and Mrs. William G. Keller, 1732 N. Division street.

Gregory Landreman, son of Mrs. Robert Landreman, 115 Sixth street, Kaukauna.

Michael J. Clifford, son of Mr. and Mrs. William H. Clifford, 427 Ninth street, Neenah.

Robert Reinkober, son of

St. Paul seminary, St. Paul, and graduated in 1956 with a bachelor of arts degree.

Other Participants

The presbyter assistant at the Rev. Father Keller's first mass will be the Rev. Edward Wagner, pastor of St. Therese. The Rev. Joseph Bestler, a priest son of the parish, will be the deacon and the Rev. Robert Smith will be the subdeacon. David Kasperk will be master of ceremonies.

Father Keller's uncle, the Rev. Richard H. Keller, pastor of St. Pius church, will deliver the sermon.

Eugene Morril, Minneapolis, will be the toastmaster at the dinner in the school hall after the solemn high mass. A reception will take place in the school hall from 3:30 to 5:30 p.m., preceded by the benediction at 2:30 p.m. First priestly blessings will be given after the benediction and during the reception.

Father Keller has one brother, Dr. William F. Keller, 2103 N. Superior street; three sisters, Sister Mary Stephen, Holy Family convent, Manitowoc, Miss Dorothy Keller and Miss Kathleen Keller, both at home.

Kaukauna Priest

The Rev. Gregory Landreman will celebrate his first solemn high mass at 11 a.m.

He is a graduate of St. Mary High school, Menasha, and completed his minor seminary work at St. Francis seminary, Milwaukee. He entered his major at St. Francis in September, 1954, and graduated with a bachelor of arts degree.

When Father Bouressa celebrates his first mass Sunday, the Rev. Adam Grill, pastor of St. Mary church, will be the presbyter assistant. The Rev. Richard Maurthe will be the deacon and the Rev. Norman Fredrick will

serve as subdeacon. The sermon will be delivered by the Rev. Leroy J. Dierbeck, dean of students at St. Francis major. Rodney Jago will be the master of ceremonies.

A reception in honor of Father Bouressa will be held from 2 to 4 p.m. Sunday in the parish hall, followed by the benediction of the blessed sacrament at 4 p.m.

Father Bouressa has one sister, Miss Francis Bouressa, Appleton; and three brothers, Thomas, in the air force, and Theodore and Francis, both of Appleton.

Father Bouressa is centenary of St. Mary parish.

The Rev. Thomas L. Keller will celebrate his first solemn high mass at 10:30 a.m. Sunday at St. Therese church, Appleton.

He was born Jan. 23, 1934, in Appleton, and was baptized in St. Therese church. He received his primary education at St. Therese school.

The Rev. Father Keller took his minor seminary work at the Salvatorian seminary, St. Nazianz, and St. Francis minor seminary, Milwaukee. He completed his philosophical and theological studies at the

Landreman, of Columbus, parish, White Lake.

The Rev. Francis M. McKeough, pastor of St. Peter church, Oshkosh, will be the toastmaster at the dinner after the mass.

A reception for Father Clifford will be held from 3:30 to 5:30 p.m. Sunday in the parish hall. It will be preceded by the benediction of the mass.

When Father Clifford celebrates his first mass, the Rev. Joseph J. Ahearn, pastor of St. Patrick church will be the presbyter assistant. The Rev. Richard H. Heymen, assistant pastor at St. Paul church, Manitowoc, will be the deacon, and the Rev. J. Mark Schumacher, assistant pastor at St. John church, Little Chute, will be the subdeacon. John H. Baumgartner will be the master of ceremonies.

The sermon will be delivered by the Rev. Irvin Uduitsch, O.F.M. Cap., a professor at St. Lawrence seminary.

The Rev. Earl Brouhoud, pastor of St. John church, Morrison, will be the toastmaster at a dinner in St. Mary parish hall after the solemn high mass.

A reception will be held in the parish hall from 3 to 5 p.m. and will be followed by benediction at 5 p.m.

First priestly blessing will

be given during the reception.

Father Landreman has five brothers, George, of Dayton, Ohio, William, James and

John, all of Kaukauna, and Lawrence of Romulus, N.Y., and one sister, Miss Dolores.

James Garner Enjoys New Life of Ease

Becomes King-Size Headache to Studio After Suspension

BY BOB THOMAS
AP Movie-TV Writer

Hollywood — (AP) — When Warner Brothers cast James Garner as Maverick, they didn't realize he was going to live the role, too.

Now the studio has a king-size headache, all because the real-life Maverick insisted on reading the fine print in his contract.

"I can make a real art of doing nothing," he grinned. "I still wake up early in the morning and I go out and play some golf; my game is get-

ting real good lately. Then I come home and take a swim in the pool, get acquainted with my daughters, do odd jobs around the house. I like this kind of life."

Lest he worry about mortgage payments, he takes an occasional trip to lend his presence at fairs, store openings, etc., throughout the land.

Summer Stock

"I'll also play 'John Loves Mary' for three weeks in Connecticut. I figure in the first four months since I've left Warner I'll make as much money from a few appearances as I did acting for the studio."

Why is he cutting ribbons and joshing home buyers instead of playing the sharp-dealing Maverick for TV? The reason is a couple of words: until recently, force majeure.

It all started when Garner was suspended March 3 through the force majeure clause in his contract. The studio argued that a major force—the writer's strike—had caused cessation of the Maverick series via a script famine.

Fox Valley Artists to Sponsor Fair

Area artists, both professional and amateur, have been invited to participate in the Fox River Valley Artists' annual outdoor fair July 10 on the Oshkosh public museum grounds.

The show is open to artists of Outagamie, Winnebago, Calumet, Waupaca, Kewaunee, Shawano, Brown, Dodge, Door, Fond du Lac, Green Lake, Manitowoc, Portage, Sheboygan and Waushara counties. Entry blanks for the show may be obtained from Bernard T. Peterson, 905 Evans street, Oshkosh, chairman of the Art Fair exhibit. All entries must be returned by July 1.

Artists may bring as many paintings as desired in any medium. The work may be framed or unframed, matted or unmatted. They must be brought to the museum early enough the morning of July 10 to be in place by 1 p.m.

The show will be held from 1 p.m. to 8 p.m. Artists will claim their work at closing time of the fair.

There will be a small entry

fee, but the Fox River Valley Artists' association will collect no commissions on sales made by exhibitors.

Studio Contract

"I didn't think they could do it to me," said the actor. "I went home and read my contract; that confirmed my suspicions. I went to my agents and they thought I was wrong until they read the contract. My lawyer thought I was wrong until he read the contract."

"My point was that I wasn't under contract to the Maverick show. I was under contract to Warner Brothers, which also could have employed me in other TV series and features for which they had scripts."

So Garner and his brain trust informed the studio that his contract was at an end. The studio, of course, denied it and promptly filed suit against him. The actor is pre-

TWO LOAVES FREE if you don't agree

If you don't agree that the New Wonder Bread is far better for flavor and toasting than any bread you have ever served, send us the wrapper with your name and address.

We will send you an order on your grocer for two loaves free. We are absolutely sure that no one ever tasted bread so good. This offer good until June 25, 1960.

Limit: 2 loaves per family.

FOR TOAST SUPREME—GET NEW WONDER BREAD

You know that toast flavor depends on how well some of the starch in bread is "caramelized" by your toaster.

What you may not know is the flavor "kick" added milk sugar can give to toast flavor.

Try New Wonder Bread and see the difference—you'll be glad you did.

Here at the Wonder Research Laboratories, the largest and most modern baking laboratories in the world, the formulation for New Wonder Enriched Bread was worked out by leading baking technologists. No other baker offers nutritional research and quality control on such an impressive and continuing scale, and no other baker offers so impressive a guarantee of consistency in the excellence of the product.

Public Employe Unions Need Time to be Fully Developed

Ald. Schneider Says Industrial Groups Have 25-Year History

BY REINHART WESSING
Post-Crescent Staff Writer

Milwaukee — More time and specific legislation are needed before public employe unions occupy the same status as unions in private industry.

This was brought out at four workshops Wednesday during the second day of a 2-day institute on city-union relations conducted by the University of Wisconsin bureau of government.

Appleton Ald. Thomas Schneider seemed to sum up the feelings of the others when he said, "Municipalities are in the same position today as the industry was in 1935 when the Wagner act was passed by congress, giving all workers the right to organize.

"You can't expect municipal units to make up a 25-year deficit overnight. Much remains to be done in the way of arbitration, labor advisory boards and mediation

Man Charged In Houle Death

Coroner Rules Bad Driving Caused Crash

Inattentive driving on the part of Emil Zech, 73, of 2102 N. Division street, was the cause of an accident May 15 which resulted in the death of Donald J. Houle, route 1, Appleton, Outagamie county Coroner Bernard H. Kemps ruled Friday.

Kemps filed a complaint against Zech Wednesday afternoon with Dist. Atty. George Greisch. Zech will appear in court either Tuesday or Friday, Greisch said today.

The ruling follows an inquest into the death of Houle, who was crushed between two cars parked on Highway 10 when the Zech auto drove into the rear of one of the cars.

Aiding Motorist

The accident took place about one mile east of Highway 45 at about 11:15 p. m. May 15. Houle was attaching a tow chain between his car and a disabled vehicle owned by Harlow Schmerler, 48, of 1314 N. Harriman street. Schmerler was injured in the accident.

The inquest Thursday was called by Kemps. Raymond P. Dohr, corporation counsel, questioned witnesses for Dist. Atty. George Greisch, who was in Chicago on legal business.

Kemps conferred with Greisch Friday afternoon on the ruling.

Green Bay Site of New Generating Unit

Estimate \$20 Million as Cost Of Addition to Present Equipment

Post-Crescent News Service

Green Bay — Construction of an eighth electric generating unit at the Pulliam plant in Green Bay at a cost of about \$20 million was indicated today in an announcement by Harold P. Taylor, president of Wisconsin Public Service corporation.

Taylor said that extensive engineering and economic studies have indicated conclusively that the new generating unit should be added by the utility at its plant on N. Blyssby avenue on Green Bay's northwest side. Long-range load growth, forecast show a new need for more generating capacity by 1964, Taylor said.

The announcement was made in connection with the company's decision not to construct a new plant at either Sturgeon Bay or Kewaunee. Officials of the two cities

have been informed of the utility's decision to add the new unit here. Taylor's announcement said:

No Alternative

"The great difference in the cost of starting a new plant when compared to the money that can be saved by adding to an existing plant has given us no alternative, other addition to our Green Bay plant."

The size and cost of the new generating unit has not been definitely determined, but G. S. Meyrick, vice president in charge of power generation and engineering, expects that it will be larger than any of the present seven units and will cost in the vicinity of \$20 million. To establish a completely new plant in a new location would cost \$4 million more, Meyricks said.

Based on the indicated cost, the new unit would have a generating capacity of upwards of 75,000 kilowatts. The present plan has 267,500 kilowatts capacity. The No. 7 unit built in November, 1958, raised the Pulliam plant's capacity by 75,000 kilowatts and was built at a cost of \$12,300,000.

Present total investment of the utility in the Pulliam plant is now \$37,200,000, company officials said.

Post-Crescent News Service

Green Bay — Three persons were injured in a 3-car collision in the southwestern corner of Brown county about 7 a. m. today at County Trunk D and Z.

Mrs. Frank Rahn, 48, route 1, Reedsville, was taken by ambulance to Kaukauna Community hospital. The driver of one auto involved, she suffered a cracked pelvis and bruises, according to the Brown County Traffic patrol.

Treated by a physician after the smash-up were Mrs. La Verne Bowers, 21, Wrights town, operator of the other car, and her daughter, Barbara, 4. Mrs. Bowers, who was jolted against the steering wheel, suffered bruises to her right arm, shoulder, neck and chest. Her daughter received a bump on her head and a cut inside her mouth. A child in each auto escaped injury.

Newborn Infant Who Was Rushed to City Dies; Autopsy Planned

The 1-day old baby girl who was rushed to Appleton Memorial hospital from New London Wednesday morning for treatment died at 1:15 a. m. today. An autopsy is being performed to determine the cause of death.

The infant daughter of Mr. and Mrs. Victor Wawiora, Shiocton, was born at Borchardt Memorial hospital at 1:47 a. m. Wednesday apparently with severe anemia and heart trouble. By 8:20 a. m. an incubator and portable oxygen tank were obtained and she was leaving New London in a police squad car.

Sawyer Funeral home, Shiocton, is making arrangements.

Mich.; four sons, James, Detroit, Norvin of Wayne, Mich., John, Milwaukee, and George, Elgin, Ill.; and 18 grandchildren.

Mrs. Elsie Doede

Mrs. Elsie M. Doede, 49, Winneconne, died at 11:30 a. m. Wednesday in Oshkosh after a 2-year illness. She was born Nov. 20, 1910, in the town of Union, Waupaca county, and was a former resident of Manawa.

Funeral services will be at 3 p. m. Saturday at Zion Lutheran church, Manawa. Friends may call at the Booth Funeral home, Manawa, after Friday noon until 2 p. m. Saturday, then at the church. Burial will be in Little Creek cemetery, Manawa.

Mrs. Doede is survived by her father, William Riske, De Wane Funeral home, three daughters, Miss Velda and Miss Lavonne; two brothers, Miss Lavonne Doede, both of Manawa, and Miss Delores Doede, Winneconne; two brothers, Leonard L. and Gus, both of route 2, Manawa; and one sister, Miss Ann Riske, route 2, Manawa.

Ask \$5 Million For Agriculture Hall of Fame

6 Counties Send Representatives to Talk Fund Raising

Post-Crescent News Service

Green Bay — The agricultural hall of fame near Kansas City, Kan., is going to take \$5 million in contributions.

Contributions were a point of discussion at a meeting of fund-raising committee leaders here Wednesday evening. Six northeastern Wisconsin counties were represented.

Depicting the history, evolution, scope and social importance of farming in all its phases, the agricultural hall of fame will rise on a 409-acre site along the Kansas turnpike 12 miles west of Kansas City.

Counties Help Every county in the United States will be asked to help in building the shrine. No public funds will be used.

Wisconsin's goal toward the building fund is \$250,000. "Industry in general, farm organizations and individual farmers are responding to the call for contributions," the group at the meeting was told by Bill Hoeft, farm director for WTMJ, Milwaukee.

Fund Raising "Labor unions, too, have been very cooperative," Hoeft said.

Much of the talk concerned the mechanics of fund-raising. There is no set plan, but the state committee is ready to help with any projects adopted by county groups.

Counties represented at the meeting included Brown, Fond du Lac, Kewaunee, Oconto, Outagamie and Waupaca. Spokesmen indicated they will be holding committee organization meetings.

Art Staple, representing Outagamie county for County Agent Jack Powers, wondered whether the agriculture hall of fame might compete with any state or local shrines and museums. Hoeft replied that while aims in some cases might be similar, the national project will be immensely greater.

Milk Checkoff Tony Frigo, of the Frigo Cheese company, Lena, said his firm is getting funds in a milk checkoff.

The first building to be built will be a huge central shrine costing \$2 million. In this structure will be hung portraits of men who have made outstanding contributions to agriculture throughout the country's history. Large expanses of exhibit space and an auditorium will be provided in this building.

seminary, St. Paul, and received his bachelor of arts degree there.

The Rev. Arnulf Buck, S.D.S., pastor of St. Martin church, will be the presbyter assistant when Father Buhl celebrates his first mass. A

classmate, the Rev. Anthony Birdsall, will be deacon and the Rev. Kenneth Frozens, another classmate, will be subdeacon. John Conrad will be the master of ceremonies.

The sermon will be delivered by the Rev. Claude Klotz, S.D.S., of Mother of Good Counsel church, Milwaukee.

A great uncle of the ordinand, the Rev. Francis C. Heimann, pastor of St. Mary church, Algoma, will be toastmaster at the dinner in St. Martin parish hall at 4 p.m.

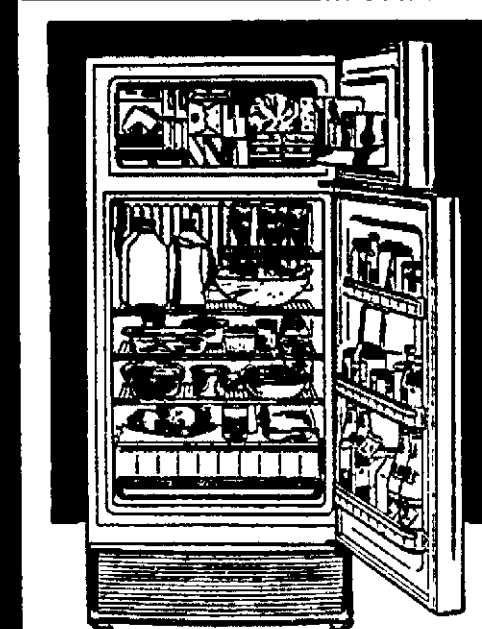

A reception will be held in honor of Father Buhl from 1:30 to 3:30 p.m. It will be followed by the benediction.

First priestly blessings will be given at the reception and dinner.

Father Buhl has two brothers, Alvin, Chilton, and Jerome, at home, and three sisters, Sylvia, Sheboygan, Delphine, Chicago, and Verne, of Appleton.

10 Pupils Gain Latin Honors At St. John's

Mary Wynboom Gets Top Rating in National Contest

Little Chute — Ten St. John High school students received honors, one a medal-pin and a summa cum laude certificate, in a Latin examination in which 33,000 students participated, according to Sister Mary Renata, principal.

Mary Wynboom earned the top award with a score of 115 out of a possible 120. Since Miss Wynboom is the third St. John student to achieve these honors, the school will receive a Latin trophy in fall. Others formally gaining honors were Marilyn Vander Burgt, 1959 and Jacqueline Berben, 1961.

Earning a maxima cum laude certificate for eminent merit was Arlene Meyerhofer. Others receiving certificates of honorable merit, cum laude, were Jennifer Driesen, Thomas Geerts, Kathryn Jansen, Betty LaMarche, Joyce Rickert, Jerome Schaefer, Carol Van Boxtel and Robert Versteegen.

The national median for sophomores was 44 compared to 71 at St. John's while the national median for freshmen was 43 compared to 64 at St. John's, according to Sister Mary Thomas, instructor. Students from all states and Canada, Puerto Rico, Mexico, Philippine Islands, Panama, Bermuda and several South American countries participated.

Gaining Special Recognition during commencement exercises at Kimberly High school Wednesday night were the students shown receiving congratulations from Dr. Glen Eye, guest speaker. From left are Donald Hearnden and Darrell Pansen, co-winners of the Louis Thien award, Dr. Eye, and Dennis Dresang, valedictorian, leadership and forensic award winner.

Kimberly Grads Told Meaning of Diplomas

University Professor Informs Students Of Responsibilities From Education

Kimberly—Graduates were diplomas extended as far told of the "length, breadth, back in time as man has depth, time and weight" of cumulated knowledge and will extend as far into time as they their diplomas by Dr. Glen Eye, professor of education at the University of Wisconsin, during commencement exercises Wednesday night at Kimberly High school. Dr. Eye told students their

way whereby man can live together in peace.

Put your formal education to use by continuing to do things of worthwhile and wider service, said the speaker. The telling of the breadth of the diploma, he said this was evidenced by the broadening of interests developed in students by education. "School is the laboratory of democracy," said the speaker, and students must continue to broaden their interests and understanding. Being different is not being dangerous, rather differences in people develop into progress, he continued. In differences in people, there is strength and this is the key to the strength

and success of our nation, continued Dr. Eye.

Diploma's Depth

The depth to a diploma is evidenced by the goals developed in students and the purposes in life given them. Other nations provide education for youth but they fail to give direction or purpose, he stated.

The fourth dimension to a diploma is "time" in that as years pass, the diploma will have more and more meaning for the graduate, indicated the speaker. Invisible writing on the diploma will ask students if each has lived up to the obligation accepted when accepting a diploma. Students must continue to develop their minds, practice citizenship and take advantage of things learned, stated Dr. Eye.

Finally a diploma has "weight" in that when it is accepted, life is just starting, said the speaker. Each year the world will expect more and more from students as a result of their having a diploma. This small paper will weigh heavy on you in the life ahead, he stated.

In conclusion he wished students a "long, long life of hard work as from this comes the major satisfaction in life."

Other Speakers

Student speakers were Dennis Dresang, talking on "Enter To Learn - Scholarship," followed by Barbara Bunnow, speaking on "Develop To Achieve - Character." The third speaker was Kathleen Nelesen speaking on, "Prepare To Lead - Leadership," and finally Maxine Van Lankvelt, speaking on, "Leave To Serve - Service."

Dr. Ralph Gage, president of the school board, presented diplomas and John R. Gerriets, superintendent of schools, introduced the speakers. Music was provided by the high school band under the direction of Gordon Kotkosky and the Mixed Chorus directed by Robert Holt.

Girl From Little Chute Makes Vows

Little Chute — Sister Mary Jacinta, daughter of Mr. and Mrs. Lambert Leygraaf, 318 Vandenberg street, made a profession of first vows ceremony at a ceremony in Cincinnati, Ohio, this morning.

Sister Jacinta graduated Sr. Jacinta from St. John High school, Little Chute, where she was a member of the National Honor society.

This summer she will be stationed at Georgetown, Ohio, and will return to the mother house juniorate for further study in the fall.

The Glenmary Home Mission Sisters were organized in 1941 to work in rural America. Included in their apostolate is social work, clinical and home nursing. They now number 103 members and have centers in Ohio, Georgia, Kentucky, Virginia and North Carolina.

Altar Society Officers Named

Kaukauna — Election of officers highlighted the final meeting of the year for the Christian Mothers Altar society of Holy Cross church.

Officers will be installed at the September sessions. Preliminary plans were made for a trip to Burlington on July 20.

Elected to offices were Mrs. John Jansen, president; Mrs. Fred Reuter, vice president; Mrs. Leonard Van Zeeland, secretary, and Mrs. Norman Boettcher, treasurer.

Modern Scores Third Win in 16-Inch Tavern Loop Action

Kaukauna — Modern barhurler, allowed eight hits, all chalked up its third win without a defeat in the 16-inch Tavern League Tuesday night behind the 4-hit pitching of Vic Diedrich.

Modern posted an 8-0 win over Power's tavern, losers of three straight. The winners scored two runs in the fourth inning on three singles and a fielder's choice and then exploded for six runs on only three hits in the fifth. Four in the second on three hits and four errors. Two more runs scored in the fifth on three hits and a fielder's choice and one run was chalked up in the seventh on two hits and an error. The winners had 15 hits and were aided by eight errors.

The losers tallied four runs on six singles in the second, added one in the third on two singles and an error and concluded the scoring with two in the fourth on an error and a triple by Joe Vanden Heuvel. The winners managed nine hits but were aided by only two errors.

Dennis Dresang Tops Kimberly Award Winners

Four Students Gain Special Recognition At Commencement

Kimberly — Dennis Dresang walked off with the major share of honors in commencement exercises at Kimberly High school Wednesday night when it was announced he was valedictorian of the class, won the leadership award and the forensics award.

William Van Hout, Jr., was named the science award winner and Barbara Bunnow was named salutatorian. For the first time in the history of the school, co-winners of the Louis Thien award were named.

This award is for athletic participation, character and citizenship. Scholarship is a part of the award as a student must maintain satisfactory passing grades while participating in school activities. Co-winners were Donald Hearnden and Darrell Jansen, two boys who have led in basketball, football, track and baseball throughout four years of high school.

Honor students named besides Dresang and Miss Bunnow were Kathleen Nelesen, Maxine Van Lankvelt, Barry Seidel, Pat Verhoeven, William Van Hout, Jr., Elaine Hooymann, Virginia Wentzel and Richard Bonzelet.

Name Winners of Legion Award at Park School

Kaukauna — Winners of the outstanding student awards, presented to eighth graders at Park school by the American Legion post, were announced in conjunction with eighth grade graduation at the school.

Lynn Mahn, daughter of Mr. and Mrs. Arnold Mahn, 1204 Hillcrest drive, was the girl winner while James Kahler, son of Mr. and Mrs. Harold Kahler, 821 Spring street, won the award for boys.

The award is issued on the basis of scholarship, school citizenship and general participation in school activity.

Badger's Life In City Short

Kaukauna — Local police were forced to dispose of a badger which invaded the southside shopping district early Wednesday morning.

The animal was noticed early in the morning in the doorway of a business place by a newsboy and he notified police. Police found the badger in an alley between Second and Third street about 7 a.m. The county game warden advised them to try to get the animal into a barrel and transport him to an area outside the city.

Police were unable to get the snarling animal cornered and were forced to shoot it. Sgts. Dean Ball and Earl Verbeten took part in the unsuccessful trapping venture.

Jacob Weyenberg Will Serve as Head of Fire, Police Commission

Kaukauna — Jacob Weyenberg was elected chairman of the fire and police commission for the coming year at a recent meeting of the group.

He succeeds Arthur Kromer who was named vice chairman. Clayton Kiffe was selected secretary. Other members are Edwin Thelen and Joseph Schouten.

Second Contest

The second game was a free scoring affair with Gertz' tavern downing Ranch bar 12-7. The winners now sport a 2-1 record while the losers have one win in three starts.

The winners opened the scoring with four runs in the first inning on two hits, three errors and a fielder's choice. Five runs crossed the plate in the second on three hits and four errors. Two more runs scored in the fifth on three hits and a fielder's choice and one run was chalked up in the seventh on two hits and an error. The winners had 15 hits and were aided by eight errors.

The losers tallied four runs on six singles in the second, added one in the third on two singles and an error and concluded the scoring with two in the fourth on an error and a triple by Joe Vanden Heuvel. The winners managed nine hits but were aided by only two errors.

June's Best Meal Ideas start with Dairy Foods!

Good things to eat come easily, when they're made with dairy foods. And here's a fine line-up for example . . . luscious dessert, snack, salads . . . cool, colorful and delicious. Now, during June especially, when nutritious dairy foods are at their best—enjoy all these wonderful treats.

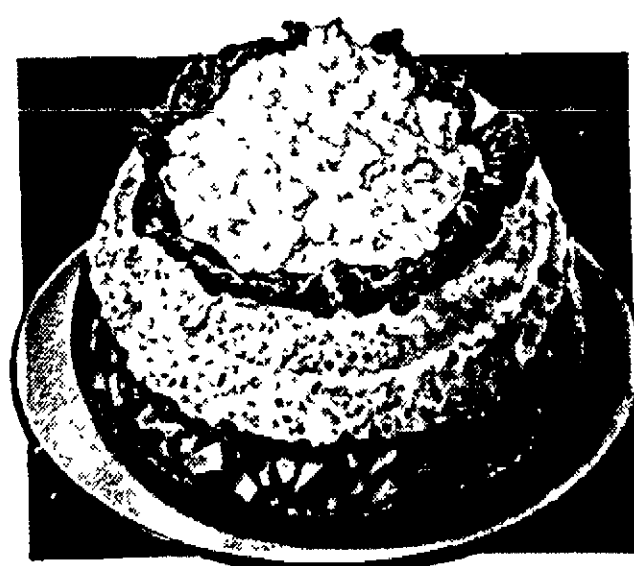

CHEESE 'N MILK COOLER

Here's a light and refreshing lunch or snack that's packed with lasting energy. Cheddar Cheese on buttered pumpernickel or rye bread makes a hearty open-face sandwich. Milk and Cheese are high in the protein we need daily.

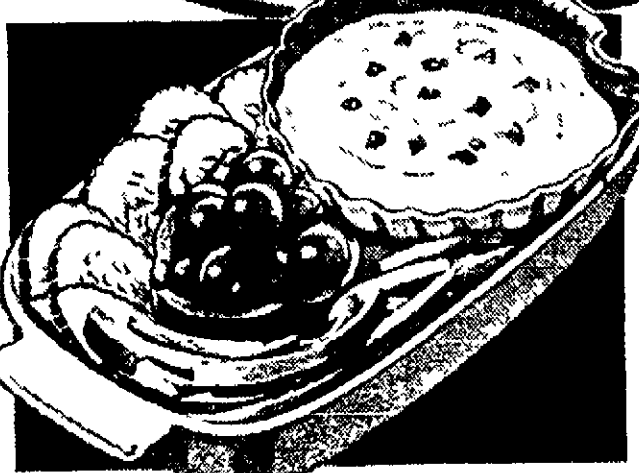

ICE CREAM DREAMBOAT

Elegant dessert that's easy and quick to make. Just heap Strawberry Ice Cream over Butter Pound Cake and top with juicy strawberries. It's a beauty!

COTTAGE CHEESE RING

Impressively colorful and cooling—for family or party. Yet the recipe is easy. See it in June McCall's or get it from the recipe pad now at grocery stores.

TANGY SOUR CREAM DIP

Refreshing new idea—garden vegetables enjoyed with a Tangy Sour Cream Dip. See recipe in June McCall's or get it from the recipe pad now at grocery stores.

PICNIC POTATO SALAD

Here's new appeal for an old favorite. The magic of Evaporated Milk makes it extra smooth and rich-flavored. So good, and easy, you'll serve it often! See recipe in June McCall's—or get it from the recipe pad now at grocery stores.

Rich Belgian Congo Dying In Convulsion of Fear, Rumor

Primitive Natives Have Wild Ideas of Coming Independence

BY SAUL PETT

Leopoldville, Belgian Congo, (U)—As a colony, the big rich Belgian Congo is dying in a convulsion of fear, rumor and confusion.

One nightmare haunts the white community. They think that many of the most primitive natives expect to take over the white man's world completely and literally on Independence Day, June 30. Take over, not only his government, but also his home, his car, even his wife.

There have been incidents but for every actual incident, 100 are imagined. True, false or medium, the result is the same in this country, where black men outnumber whites 130-1. The Belgians are scared.

Airlines Jammed

They have been flying out by the thousands. Airlines are jammed. In rural areas, many plantation owners, copper mining officials, missionaries and trading post managers are planning to send their wives and children to towns for protection.

In the cities, many white homes now have guns. Business is dead. Few consumers

and retailers are buying more than they absolutely need. The white community (normally about 100,000 compared to 13 million Africans) waits tensely and the rumors multiply. Is there any substance to the reports? Apparently there is, according to missionaries, Belgian officials and people I talked with at the American and British consulates.

While there has been much semi-hysterical exaggeration, they said, this kind of thing has occurred: African men (no one can say how many) have approached white women and said, in effect, they were taking title to them after June 30. African men, until a few months ago very polite and unfamiliar, have greeted white women with a broad smile and, "Bon jour, ma cherie." (Hello, my dear).

Natives in a northern village have laid out many empty boxes, crates, tubs at a cemetery, thinking that with independence they will be filled with the white man's clothes, food, goods. Somehow, they associate the dead with the coming miracle.

A man coming out of a barber shop in Leopoldville saw several natives eyeing his car possessively. Why? "It will be ours after June 30," said the owner. "I suppose you think you'll get my house, too?" Said the natives: "Oh yes sir."

Some Africans have been making mysterious calls about the ownership of cars, homes, shops. Two approached the back kitchen of a handsome house overlooking the muddy Congo river and asked about the owner. "Uncle," said the cook. It is the official home of the United States consul.

Blacklist Rumors

There are many rumors of African blacklists: After June 30, the bad whites will have to go, only the good ones can remain.

Trying to nail this last type of rumor down is like trying to nail gelatine to the wall. But true or not, many Belgians now treat their houseboys more carefully.

Many people don't know what to believe. This much is fact. Some of the lesser African politicians, or jungle precinct captains, have led their primitive constituents to believe they will take over the white man's possessions June 30. The top African leaders have tried to spike these notions, but it's doubtful if the speeches can catch up with the rumors among wishful thinking natives in the remote villages unreachably by radio or newspapers.

This uncertainty is the harvest of haste as the Congo, one third the size of the United States, races toward freedom from Belgium. No colonial power ever caved in so abruptly to the tide of independence sweeping black Africa. No colony had less preparation for self-rule. Eighteen months after the word was first mentioned officially by the Belgian government, independence is now over the horizon.

With three weeks to go, white civil servants and even army officers don't know whether they'll have jobs at the end of the month. The public doesn't know what the new

Official Raps Rail Proposal

North Western Head Wants Unprofitable Trains Discontinued

Washington — A senate bill making it harder for railroads to discontinue unprofitable passenger service would be "a destructive program of unnecessary regulation and control" which "could well be disastrous," Heineman for the Chicago and North Western railroad, Chairman Ben W. Heineman has told a senate subcommittee.

Between 1947 and 1959, the North Western suffered a cumulative loss of \$287 million, Heineman told the surface transportation subcommittee of the senate committee on interstate and foreign commerce. In the same period, the railroad's cumulative net income was only \$21,800,000.

A bill introduced by Sen. Magnuson (D-Wash.) would require the interstate commerce commission to hold public hearings on the curtailment of railroad passenger service if there were any protests. Railroads now can drop or reduce such service if the ICC does not object within 30 days after the railroad files an application.

"Public Penalized" Heineman said that if it were not for the North Western's loss on unprofitable passenger trains, freight rates could be reduced. He said that the road operates passenger trains on only 28 per cent of its miles of track and to only 16 per cent of the communities it serves.

"The public relying on our entire system is being heavily penalized by the passenger deficit incurred for the very few," he said. He distinguished between suburban service, from which "the North Western has no desire to withdraw," and "through passenger service."

Some labor leaders testified in favor of the bill. Heineman criticized them for "their failure to protect jobs by this type of economic har-kari."

Last year, he said, the brotherhoods persuaded the Wisconsin legislature to require an extra brakeman on marginal or losing passenger trains.

They came at him five at a time. He begged them to form a line. They formed a circle. He begged them again. They formed three parallel lines.

Hours later, the weary Belgian was still answering questions and a vote was nowhere in sight.

"And independence is only a few weeks off!" said the perspiring Belgian, caught in the confusion of backward people grabbing at the 20th century.

spades to force out the ace, and East hopefully returned the ten of hearts. If South had three hearts headed only by the king, he could be beaten right away.

Key Suit

As it happened, South had no problem in hearts; diamonds was the key suit. South stepped right up with the ace of hearts, drew another round of trumps, and led a diamond towards dummy.

This was where West sold the defense down the river. He knew that it was often important to signal with a doubleton, so he played the nine of diamonds on the first round of the suit.

South took great interest in this signal. He won with dummy's king of diamonds and continued with the queen, noting the fall of West's deuce. Apparently West had started with either two or four diamonds.

Declarer went on with a third diamond from the dummy. East followed with the eight of diamonds, and it was now clear that West could not have started with four diamonds. If his signal was to be believed, he had started with only two diamonds.

Acting on this information, South finessed the 10 of diamonds. The finesse worked, and South cashed the ace of diamonds to discard a losing heart from dummy. This limited the loss to one heart, one club and one trump.

If West played the diamonds normally, South would have no reason to finesse. He might well play for the drop, and this would cost him the contract.

Daily Question

Dealer, at your right, bids one club. You hold: S-K Q J 8, H-A 5 2, D-A 10 6 5, C-6. What do you say?

Answer: Bid one spade. You are not strong enough to sink-double first and then bid an approach shot.

Heading the opening day committee was Mrs. Alex J.

Weekly ladies' day activities at Riverview Country Club began officially Tuesday with team golf competition in the morning, followed by an afternoon of luncheon and bridge. Mrs. William A. Daniel, Sr., and Mrs. Paul A. Tepper are women's golf chairmen.

Assisting with golf arrangements are committee members the Mmes. W. T. Bernhard, Alfred S. Bradford, Martin J. Eich, Fred T. Eustice, Earl A. Fetting, John W. Green, Charles J. Hawkins, Jr., Charles A. Henderson and Ernest N. Krueger. Others on the committee are the Mmes. John B. Menn, Robert C. McKee, L. R. Watson, J. Edwin Woody and Kenneth A. Craig.

Riverview women golfers have been grouped into 12 teams, with four on each. Captains and their combination golf-beverage team titles are the Mmes. F. H. Sprowl, Swinger; Wilmer Stach, Putt-cardi; E. F. Mielke, Brassie Julep; William Hale, Bogey Mary; C. B. Sitterson, Trap and South; L. R. Watson, Old Mashie. Mrs. Robert DeCock is captain of the Partini group, and Mmes. Marilyn Olson, Caddy Libra; Rudolph Vogt, Teequirit; R. L. Lang, Fairway Sour; P. B. McConnell, Scotch on the Rough; and John W. Green, Greens Lady.

Tuesday's special event at Riverview was a throw-out tournament, and the day's winners were the Mmes. Tepper, Lang, Robert Swalby and LeRoy Joseph. Mrs. Earl A. Fetting won a prize for sink-double first and then bid an approach shot.

Heading the opening day committee was Mrs. Alex J.

Mrs. C. A. Elvehjem to Speak at State PEO Sisterhood Conclave

Colman and Ormsby halls and the Music-Drama center on the Lawrence college campus will be the setting for the 43rd annual state convention of the PEO Sisterhood June 21, 22 and 23.

PEO is an organization of women dedicated to educational, charitable and cultural purposes. It achieves these purposes through a revolving loan fund, a college which the organization owns and scholarships for foreign students. The loan fund was the earliest project of the group, established in 1907 to help young women to attain an education beyond the high school level. This is a revolving fund of more than \$930,000 from which May. State chapters convene annually and the international convention is held every two years.

Hostesses for this year's convention are chapters AT and B of Appleton, BT of Neenah-Menasha and AG and BA of Oshkosh.

Mrs. Conrad A. Elvehjem, state president and the University of Wisconsin's first lady, has chosen for her convention theme, "Hi-Fidelity Christians in Tune with God."

The state president is active in a variety of activities. She is a member of the Dane county Red Cross chapter and in 1951 was elected to the board of directors, of which she still is a member. She served as chapter delegate to the national convention in 1953, acting interim executive director in 1955, member of the executive committee in 1951, 1953 and 1956, vice chairman in 1954 and secretary in 1955. She was elected to the executive committee in 1957 and again in 1960.

Host to Delegates

As a state president of the PEO Sisterhood, Mrs. Elvehjem recently was hostess to the annual 2-day executive board meeting of the state officers, who discussed scholarship policies and matters of business pertaining to Wisconsin.

In June, 1958, she was named "Wisconsin Alumna of the Year" by the Wisconsin Alumna association.

Guests attending the convention include Mrs. E. L. Gardner, Ventura, Calif., recording secretary of the Supreme chapter; Mrs. C. E. Rinehard, past Supreme president from Chippewa Falls; Mrs. James B. Schroeder, Stevens Point, Cottey college trustee, and Mrs. Peter W. Dorschel, Green Bay, education fund trustee.

over 12,350 women have been aided through loans totaling over \$5 1/2 million. Each year some 1,700 students are served through the fund by PEO.

Owens Missouri School

Since 1927, PEO has owned Cottey college, established in 1884 in Nevada, Mo. The junior college for women was given to PEO by the founder, Virginia Alice Cottey Stockard, who was a member of PEO Sisterhood. Since 1950, there have been about 100 students from 30 countries enrolled at the school as a part of the world friendship program. Cottey also is a member of Reid Hall Third Year in Paris plan.

In 1949 PEO members began the International Peace scholarship program. Voluntary contributions of the membership are providing scholarships for selected women from other countries for study in colleges in the United States and Canada. During the 1958-9 academic year, 94 scholarships amounting to \$68,000 were granted to women from 29 countries. These 94 students attended 52 colleges and universities in the United States and Canada.

Since the beginning of the program, 557 scholarships have been given to students from 56 countries. The amount of money given to these women from other countries totals \$418,000.

Many Chapters

There are more than 3,600 PEO chapters throughout the United States. Membership has surpassed 137,000 women. For the last 30 years the executive office of the organization has been maintained in the PEO Memorial library on Iowa Wesleyan campus, Mt. Pleasant, Iowa, where the organization came into being Jan. 21, 1869. The library building was a gift from the members to the college as a permanent memorial.

Membership in the organization is by invitation. Local chapters meet twice a month, usually from September to

May. State chapters convene annually and the international convention is held every two years.

Hostesses for this year's convention are chapters AT and B of Appleton, BT of Neenah-Menasha and AG and BA of Oshkosh.

SEAMS TO ME

By Patricia Scott

Questions On Sewing

Are you confused by various sewing methods? Does it seem as though each sewing book gives different instructions for the same thing? Don't be confused. Just try them, and then stick to the method that satisfies you and is best for you!

Q. I think you gave the two girls bad advice in your column of April 27. The skirt should have been made with a high belt instead of making the skirt over into a dress. And for the button loops, you can buy a silk cord and make the loops instead of making them of thread. Don't you think this a better method?

A. Each sewing expert believes that her method is the best. Naturally, we try various methods and work out many of our own. Then we recommend those we think are not only the easiest, but which do not sacrifice perfection for speed.

If you gave four dress patterns to four dressmakers, the finished products would probably appear identical, but in all probability, each would have used a different technique. The price dressmakers charge is also determined by the amount of work they put into the job. Your method is time saving. Mine is not. But in this case, I prefer a finer look to a few minutes saved.

If you are happy with the method you use, then by all means stick to it.

Q. I've been having a sewing problem and wonder if you could help me. When I make a dress, I have to alter it. I measure 36-28-40. I usually get a 14 or 15 pattern so I have to alter the hip and waist. Some tell me to add on to the side and others say to slash the pattern and add the amount there because the style and lines will be off if taken from the side seams. What should I do?

A. First of all, according to commercial pattern measurements. In the book FREE — 3 quilt patterns. Hurry, send 25 cents for your copy.

Send Gift on Occasion To Friends

BY EMILY POST

Dear Mrs. Post: I don't have a wife, live in a very small apartment and don't actually "keep house," and am not earning a whale of a salary. The combination does not make it easy to return the hospitality accorded me by married friends, particularly several couples who invite me frequently to family meals. All I've done is to take a bottle of wine or whiskey now and then, and then proceed to help drink it. I'd like to have your suggestions.

Answer: For occasional hospitality, a bachelor — especially one who is known to have limited means — is not expected to make any return. That he makes an effort to be agreeable to her guests is all a hostess generally asks of him. For repeated hospitality, there does come a time when even a bachelor may be expected to make some effort to show a little tangible appreciation. So regardless of how your particular hosts feel about this, it would certainly please them to have you, let's say, send the wife a few flowers on an anniversary, or sometimes take her a box of candy; even a few toys for the children. Or, as a special treat, if you can manage it once a year, invite the husband and wife out to dinner, or to the theater.

Firm Tells News

Dear Mrs. Post: My husband has just been made a partner in his firm. Would it be proper to send out announcements to this effect, and if so, how should they be worded?

Answer: It is the firm that sends out cards announcing that your husband has been made a partner. They also usually repeat the announcement as an advertisement in the business pages of the newspapers.

Dear Mrs. Post: Will you please explain the difference between an American plan and a European plan hotel? My friend and I have a difference of opinion on this.

Answer: American plan means so much a day for room, including meals. In the European plan hotel, the prices of rooms include no food.

Mrs. Post offers readers leaflets on a variety of subjects concerning etiquette. If you would like to have her booklet E-504, entitled, "Etiquette of Table Setting," send 25 cents in coin to Dept. E.P., care of this newspaper, P.O. Box 99, Station G, New York 19, N.Y.

Make Washing Pots, Pans Easier

Helpful hint from an experienced housewife: Turn badly-soiled pots, pans, and dishes up-side-down in the hot sudsy water when you wash them. She says this makes the food particles come off more easily.

Readers with sewing problems, and with questions on wardrobe and fashions. However, because so many are seeking her assistance, Miss Scott asks readers to please limit their letters to only one question. Send your question to Patricia Scott in care of this newspaper, enclosing a stamped, self-addressed envelope for reply.

Ann Again Discusses Question Of Blue and Brown-Eyed Babies

BY ANN LANDERS

DEAR READERS: Several weeks ago a letter appeared in this space asking what I thought about a newborn baby who had blue eyes when both the parents had very dark brown eyes.

I suggested that the reader write to me in about six weeks because all newborn babies have eyes that appear to be blue.

I did not mean to imply that if the baby's eyes didn't turn

brown something was amiss. Many readers apparently got this impression, however, and the results have been devastating.

I've received an avalanche of letters from blue-eyed, brown-eyed, green-eyed and gray-eyed readers — all wild-eyed. They have informed me in singularly emphatic tones that their eyes are not the color of either parent but nothing is fishy in their family.

I wish to make it clear that although the odds are against two brown-eyed people producing a blue-eyed baby, it can and does happen in the very best of families.

DEAR ANN LANDERS: Two years ago I met an interesting man who is now 52 and has never married. He lives with his parents who are in their 70's.

I have three children, all grown, and I am divorced. His mother will not invite me to their home so we have never met. Both his parents are dead-set against him marrying me. They are trying to push him into a marriage with a 32-year-old family friend whom he has dated (platonically) for 12 years.

I think it's time we got married or called it quits. He says his folks will never accept me and has suggested that we wait until they die. We are deeply in love and I know I could make him a very good wife. He says if I loved him I'd be willing to wait. What is your advice?—Dim View

Dear Dim: This man has been of age for 31 years. His suggestion that you wait around for his parents to die is a gross insult, not a proposal.

A man 52 who lacks the maturity and independence to tell his parents he has met the woman of his choice and is going to marry her, sounds like second-rate husband material.

DEAR ANN LANDERS: Our daughter lives out of the city. She is a nice, quiet girl, but something went wrong and she had a baby girl two months after the wedding. No one in this city knows yet as the baby is only a few weeks old.

I had a letter from her yesterday saying that her husband has been transferred to a new city which is 2,000 miles away. She wants to come home for a few weeks before they move out west, as they'll probably be unable to come home for at least three years. She plans to bring the baby along.

I dread having to face people and explain the sudden addition to the family. I told my husband I think they should leave the baby elsewhere and pick her up after the visit. My husband says we might as well face the shame

and get it over with. What do you say?—Confused

Dear Confused: You can't hide a baby by putting a slip-cover over it, as if it were a worn out sofa. The news of the early edition is going to get out sooner or later.

Since your daughter has announced that she would like to come home with the baby, tell her to be prepared to answer some pointed questions.

Let her handle all inquiries in her own way. Simply refuse to become involved in explanations or apologies.

To learn how to keep your boy friend in line without losing him, send for Ann Landers' booklet, "Necking and Petting—And How Far To Go," enclosing with your request 20 cents in coin and a large, self-addressed, stamped envelope.

(Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.)

Books Plus Beach Equals Sore Eyes

Don't take that best-seller or exciting paperback to the beach with you. Culture begins at home, and that's where it should stay when the bright rays are dazzling the sands and water of your favorite sunning spot.

Reading in the sunlight — or even in the shade of a beach umbrella — is hard on the eyes, report researchers. Dark glasses are no help, either, even though they may give the illusion of comfort. This same rule goes for any other form of "close" work, such as knitting or doing crossword puzzles.

A Lovelier You
By Mary Sue Miller

Beauty and the Bath

Most women scheme and cream to keep the skin youthful from the neck up, but completely forget that it can also scuff and age from the neck down. Let's end this damaging double standard!

Actually, there is no better time than the present to pamper your over-all complexion. More of it will be showing, thanks to abbreviated swim suits and play clothes, to low-cut and sleeveless dresses.

The ideal place for an improvement program is the daily bath. Just a thorough scrubbing with a stiff, sudsy brush tunes up the skin's color and clarity. Massage with a soapy pumice stone vanquishes callouses and discoloration.

While you loll in the bath, the skin can even be lubricated. And that's the satinating step without which no skin-care program is complete. Lubrication takes the form of lipodermic bath oils. Added to your bath these oils permeate every drop of water, and thus reach and smooth every inch of skin.

It's a promise that if you use this method in its entirety, you will bathe beauty back to your skin.

For 50 ways to look lovelier, send for my leaflet, "Instant Beauty Tips." It shows you how to overcome such annoyances as chipped polish, ragged lipline, straggly hair, and even stuck zippers; also, how to create glamour fillips with makeup and accessories. For your copy, write me in care of this newspaper, enclosing a self-addressed, stamped envelope, and five cents in coin. (Copyright, 1960)

Give Appropriate Gift to Graduate

BY ANGELO PATRI

Graduation is a high day in the graduate's life. The proud one in elementary school is just as proud and more so when he is graduated from high school, and he loses none of the elation, the pride of accomplishment when he is graduated from a college or university.

Old or young, the graduate wants the day marked by group session before, in, and those he loves and whose affection he wants shown him wonderful but as I look at it, on this his great day. This college is scarcely the place to be shown him not only in for it if other ways, like the lighted eyes, the affectionate greetings and congratulations. It must be in vis- from financial worry are possible and lasting form. A gift sible.

Study Graduate What shall it be? Flowers, one gift he will use and well to be sure, are always welcome. It is a stout brief case. But they don't that will stand hard wear for administration at Milwaukee last. He or she will be better years to come and still look served by a more lasting sym- good. Don't bother with bol of appreciation and en- sort that wears out before couragement. Study the grad- term end. He will need a uate and his state of growth good, well-bound loose leaf and what he wants, or even note book with plenty of good what he needs, and supply the paper to fit it. And he will right answer if possible. Does need acutely a good pen. he need money more than? If these necessities have

Man Fined for Fast Driving

Chilton — Jerome M. Kometer, 21, Sheboygan, was fined \$25 by Justice Leo Kartheiser after pleading guilty to driving too fast for conditions.

Kometer was apprehended by county police after being involved in a county traffic mishap which resulted in an injury.

Four speeders also appeared before Kartheiser. Jerome Reynik, 56, Green Bay, was fined \$15; Leroy Anderson, 20, Wallace, Mich., \$11; and Randall W. Farfield, 41, Janesville, and Michael J. Nielson, 40, route 2, Appleton, both paid \$10 fines.

Service Officer to Attend State Meeting

Waupaca—Frank R. Smith, Waupaca county officer, will attend a 3-day institute for county veterans service officers at Superior State college, June 15, 16 and 17.

Members of the Veterans administration at Milwaukee and of the Wisconsin Department of Veterans affairs will explain new veteran laws now in effect.

been provided by others, a camera will be fine; a microscope is a wonderful bit of equipment that he can use with profit for years to come — and is likely to need.

The gift that shows the giver's thoughtfulness of the person to whom it is to go is what makes it valuable to him. Something the graduate will never use is not likely to arouse his gratitude, his feeling of having an understanding friend. The one that is "just what I wanted" will surely go straight to his heart.

Can a Lamp Shade be Chosen Without Lamp?

How can the right lamp shade be chosen for a newly wired base, or for an old lamp, when the base isn't taken along on the shopping trip? Few experts even try a feat like this. A wrong-sized shade gets a laugh every time, and it doesn't have to be more than an inch or so too small or too large. Lamp shades chosen by guesswork often look as if they, too, are perched precariously or are pulled down over the ears.

The way to find the most becoming shade is the way to find the most becoming hat—by trying it on. The size of the

Nichols Bank Holdup Trial In Second Day

Two Outagamie Lawmen Testify At Milwaukee

Two Outagamie county law enforcement officials returned from Milwaukee today after testifying in the trial of two of three persons who attempted to hold up the Nichols State bank Feb. 29.

Undersheriff Donald Heinrich and Lt. Jack Zuelzke, who were instrumental in capturing the trio, took the stand Wednesday.

On trial before Judge Robert E. Tehan in federal court are Earl W. Wing, 54, of Shiocton, and Mrs. Ann Schley, 36, of Milwaukee. The third member of the trio, Leonard R. Lepley, 29, of Milwaukee, has pleaded guilty.

Drop Charges

Charges of armed robbery against Wing and Mrs. Schley were dropped, but they still face charges of bank robbery. The maximum penalty is 25 years.

Darrell Hahn, Nichols, assistant cashier at the bank, testified Wednesday there was more than \$10,000 in the bank when he outbluffed a would-be robber armed with a sawed-off shotgun.

Lepley has been identified as the gunman who was bluffing out of the bank. He testified Wednesday that Mrs. Schley, his buxom girl friend, took no part in planning the robbery.

However, Wing's statement, read by FBI agent John O'Connell of Appleton, quoted Hillyer's FURNITURE AR-RANGEMENT KIT. It helps any save time and costly buying mistakes—and it's yours for 50 cents and your request sent to Miss Hillyer at this newspaper. Please allow approximately 3 weeks for mail delivery.

PET DOCTOR

Question: Can we keep a monkey as a pet without endangering the health of our family?

Answer: The physical characteristics of the monkey resemble man more than those of any other animal. Consequently, he is vulnerable to many of man's contagious diseases and precaution should be taken before he becomes a household pet. A complete medical examination, including polio and other preventive cannot reply to them.)

School Registration Times Announced

Kimberly — Incoming Kimberly High school freshmen who have not yet registered may do so at 2 p.m. Friday, Principal Ray Hamann has announced. They should report to him at the high school.

Students who wish to attend Public Grade school in the fall but who have not been enrolled have been asked to report to Principal James Koehn at the grade school at 2 p.m. Friday.

Employment Up Over Year Ago; Down From March

Late Spring Decline First In Many Years, WSES Reports

Neenah — Employment is still slightly higher than a year ago at this time though it did take an unexpected dip since March, A. P. Engebretson, manager of the Wisconsin state employment service office here, indicated today.

For what is probably the first time in history, or at least in recent years, employment in Neenah-Menasha not only failed to gain but showed a decrease from mid-March to mid-May, he said.

General stability for the period had been predicted two months ago, with the possibility of a slight decrease, principally among women employees. Actually, a decrease of 132 workers occurred, of which 45 were women.

Down to 11,552
Total employment in the 43 establishments reporting labor market information stood at 11,552 in May as compared with 11,684 in March. In spite of this decrease, the total for mid-May is slightly higher than that of a year ago so that the gains made in the last half of last year have not been completely wiped out by losses this year, Engebretson said.

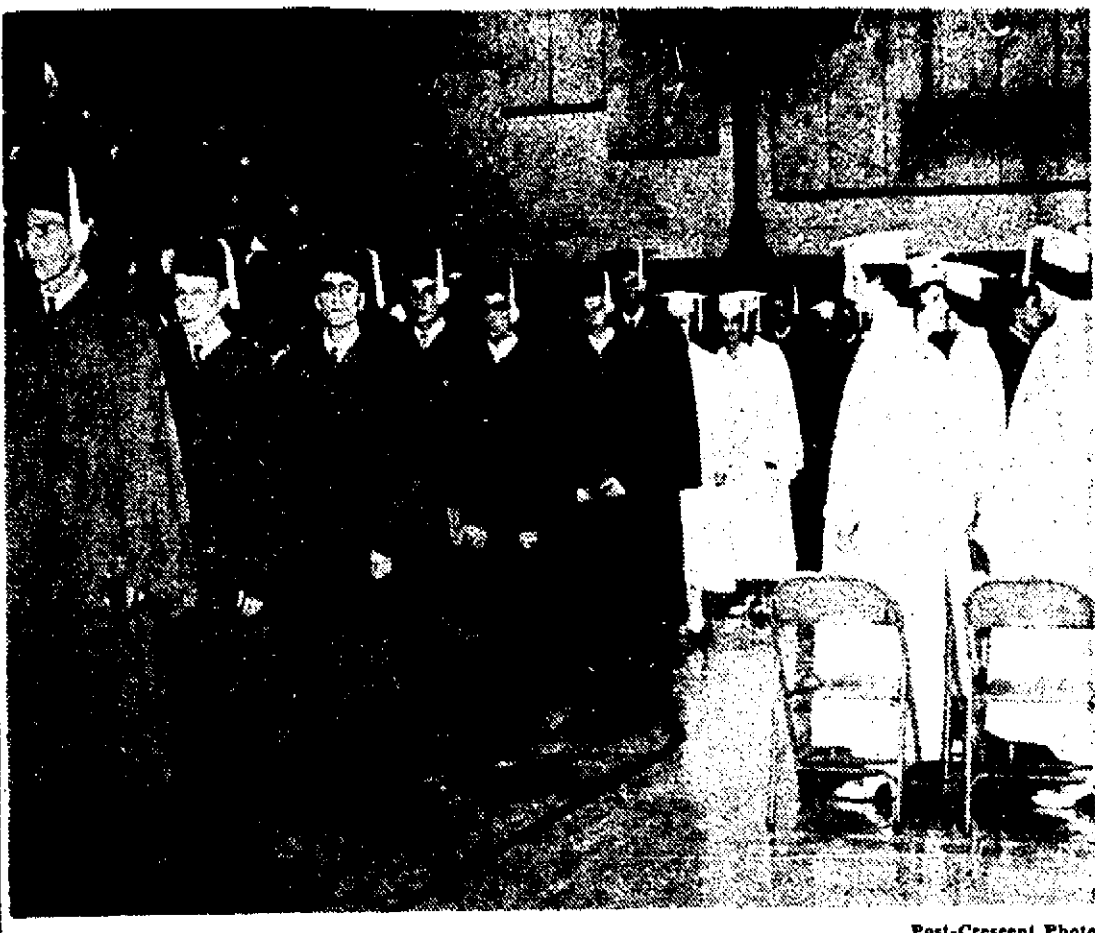

The bulk of the loss in employment took place in the predominant paper industry, although smaller losses were also registered in some other manufacturing fields. The loss is small, being only slightly over 1 per cent, but the disturbing thing is that it occurred at all, at a time of year when local industries normally show a substantial increase in employment.

Expect Upward Turn
A reversal of this downward trend and a return to a more normal pattern is expected during the next two months.

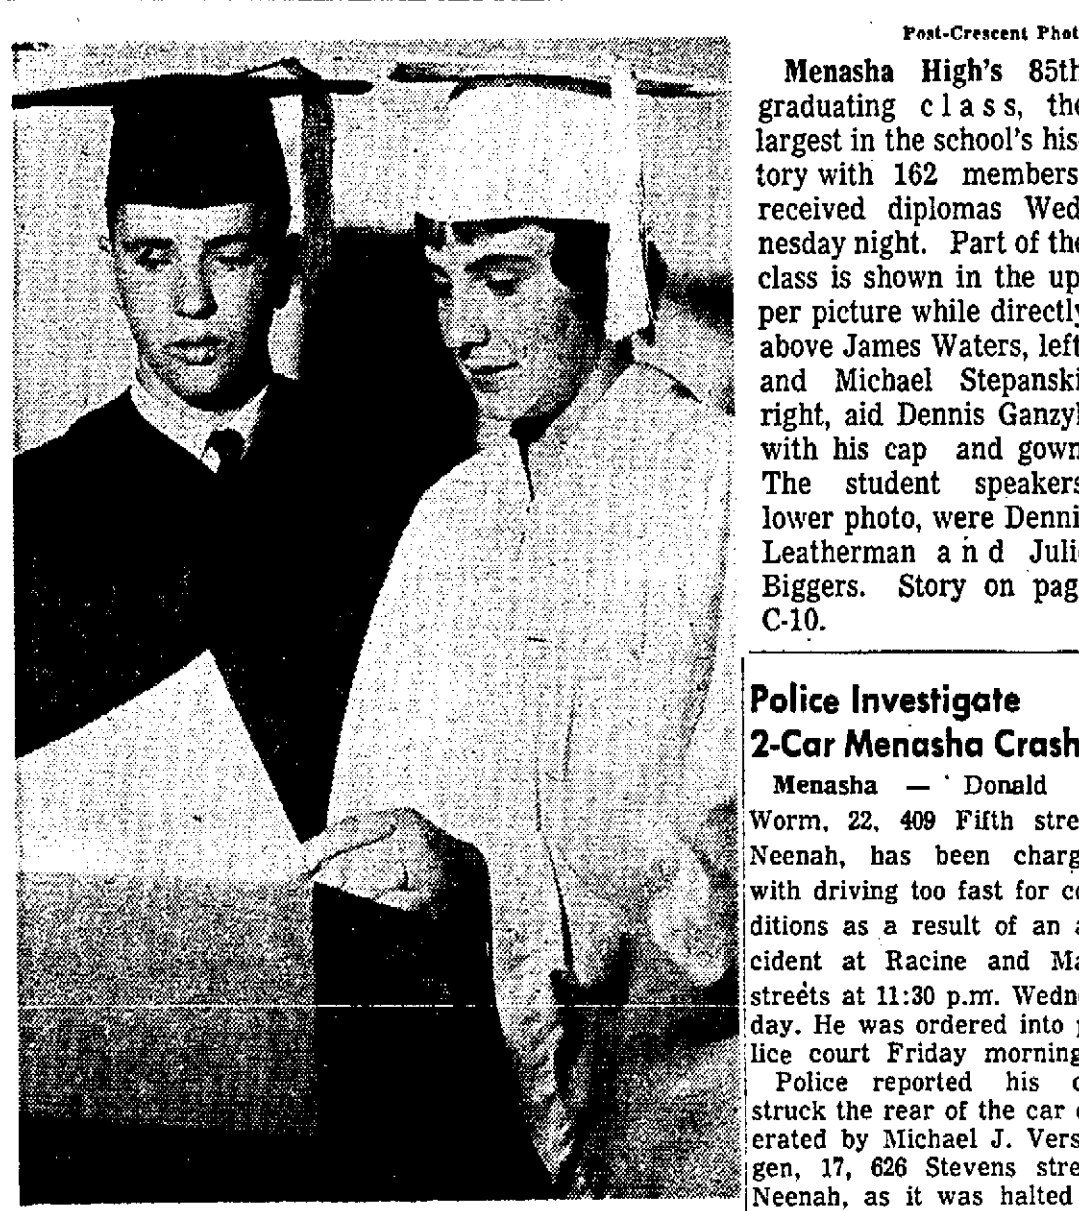

Konrad on Panel at State C of C Meeting

Neenah — John Konrad, executive secretary of the Neenah-Menasha Chamber of Commerce, will take part in the annual Wisconsin State Chamber of Commerce Executives conference at Marinette from today through Saturday.

He will speak on a panel Saturday on the topic of Chamber Financing and Special Problems.

Neenah High School Graduated a class of 206 Wednesday night. Above, the recessional was underway after the diploma presentation. Police Investigate 2-Car Menasha Crash

Menasha — Donald R. Worm, 22, 409 Fifth street, Neenah, has been charged with driving too fast for conditions as a result of an accident at Racine and Main streets at 11:30 p.m. Wednesday. He was ordered into police court Friday morning.

Police reported his car struck the rear of the car operated by Michael J. Verstegen, 17, 626 Stevens street, Neenah, as it was halted at a stop light. A passenger in Verstegen's car, Richard Getschow, 16, 224 Bond street, complained of a sore right arm after the crash.

Motorcyclist, 17, Hurt in Accident

Neenah — A motorcyclist, William Holewinski, 17, 338 Third street, Menasha, received a bruise on his left leg and on the right arm after he and a car driven by Edward J. McMurchie, 74, 223 Spruce street, collided at the First and Hewitt streets intersection at 7:50 p.m. Wednesday.

Holewinski was taken to Theda Clark hospital in the Neenah ambulance. He was treated and released and was to return today for X-rays.

Menashan Fractures Skull When Ladder Falls in Garage

Menasha — William Erickson, 52, 717 Keyes street, suffered a skull fracture, leg cuts and body bruises when a ladder on which he was standing fell in his garage Wednesday night, dropping him to the concrete floor.

Erickson is under treatment for his injuries at Theda Clark Memorial hospital. He was treated for shock after admission.

Explaining Characteristics of Dickens' first editions which distinguish them from other printings is Mrs. Ernst Mahler, E. Forest avenue, shown in her library. A comparatively recent "hobby", Mrs. Mahler says she is an enthusiastic amateur and learns something from each purchase.

Ernst Mahlers, 'Born Collectors' Share Interests in Many Fields

Neenah — "I started book collecting because my grand-children had never heard of out John Eckel's book on 'The flower arrangements in beech-wood for fireplaces in English castles. She says she has bought anything. Now that I had "some luck" in finding the next time I was in Chicago, I asked for the 'Christmas Carol' and before I knew it I was looking at first editions. First editions of Dickens are unusually hard to find, and the search for them is very interesting.

"I don't really know anything about book collecting or first editions, but we live in a hobby house and we both love collecting.

"Ernst has for years collected first editions of hunting books, but he has many interests and, except for these, first editions are among his lesser enthusiasms. But for me it is an interest that has developed with each one I've found."

Mrs. Mahler now has "The Tale of Two Cities", "Bleak House", "David Copperfield" and "Little Dorrit" besides "The Christmas Carol."

Given Guiding Principles

Menasha High Graduates 162 For Largest Class in History

Menasha — Menasha High's defined line "is the moral, to paint one painting, which school's largest graduating structure by which we con- you will call "my life," he told the graduates. "Be sure across the stage Wednesday night to receive diplomas and in the painting is the per- it is also your masterpiece." son's personality. A painting must always be complete, as life upon completion should be fulfilled," he said.

Listing four guiding principles for life, remembered from an art class he attended in California, J. Roger Deas, American Can company speaker, won admiration from his audience for the memory feat of sprinkling a long list of local names and events in stories illustrating his points.

"Life, itself, is indeed an art," he reminded, in his talk, "Your Life — A Masterpiece." The four elements of life as the four necessary elements for a painting masterpiece are proper perspective, a clearly defined line, a spot of red and completion of the painting, he listed.

Proper Perspective "Have the proper perspective," he advised. It is not what you are going to get to take their girl friends from life, but the heights you are going to reach. The clear-

Hearing Set for Boys Who Took Boats

Neenah — Juvenile court hearing has been set for Monday afternoon in the case of two Neenah boys, 16 and 17 years of age, who Friday night broke into the Stahl Marine shop at Shattuck park and took a boat plus another boat taken from the dock behind the library.

A patrolling squad car noticed a light in the shop, investigated and apprehended the youths who had planned what you are going to get to take their girl friends from life, but the heights you are going to reach. The clear-

Dennis Leatherman, speaking in "New Horizons — New Responsibilities," told his classmates the responsibilities they will face in the future all have one thing in common. They are like hurdles, over which we will stumble, if we think only of our own wants and not of the considerations of all, he said.

"We must utilize what we have developed here in seeking the key to human relations," Julie Biggers, representative of the class, said. "No matter which door opens to our future, we will need the key to human relations." Each of us can mold our own key to human understanding to unlock the door to a happy and successful life, she said.

Lakeview, Ramblers Matched in Feature

Both Teams Take Perfect Records Into League Fray

Neenah — Tonight's feature game in the Twin City Industrial Softball league will

bring together Lakeview and the Marathon Ramblers, the National division's only unbeaten teams.

The teams will square off at 6:30 p.m. at the Recreation field. Marathon leads the circuit with three victories. Lakeview has been postponed one less time and has a 2-0 slate.

Two clubs at the other extreme, both looking for their first win, collide in the 8 p.m. encounter. They are Neenah Foundry, winless in four outings, and Bergstrom Paper, defeated in two.

The night's third National league fracas will match the Marathon Packers against Main Office at 6:30 p.m. at Jefferson park. Office owns a 2-1 record and the Packers have 1-1.

The only American division struggle will match first place Gilbert Paper, victorious three straight times, against Wisconsin Tissue Mills (0-2) at 8 p.m. at the Jefferson diamond.

The league will continue its long list of makeup games Friday night with two contests on tap.

Neenah Paper will play Strange Paper and the Marathon Packers vie with Bergstrom's at 6:30 and 8 p.m. respectively at Jefferson park.

Bev Mikich Hits High 521 Set in Summer League

Menasha — Bev Mikich bowled a 521 series to lead the Solar Discs Summer Women's Bowling league Monday night at the Mid-Town alleys.

Betty Nelson bowled a 197 game and Gloria Zimmer had 503 in the second last session. The latter bowled a 196 game.

The Venus, Saturn and Mars teams are tied for first place with 8-4 records but Venus leads in total pins, 6,514 to 6,382 for Saturn.

Bowerman to Coach Winneconne Junior Legion Baseball Club

Winneconne — John Bowerman has been named coach of the Giles - Luce Junior Legion baseball team. The Winneconne nine will open its schedule here Saturday against Menasha.

Bowerman, a physical education teacher and basketball coach at a Rockford, Ill., high school, is spending the summer here. In September he will attend the Mayo clinic to study physical therapy.

The Legion team, which will be starting its second season, is practicing at 5:30 p.m.

Shriver Paces Zephyrs With .432 Average

Koerner Records .408; Becker's 3-3 Leads Pitchers

Menasha — A .432 average gave Gary Shriver, senior outfielder, hitting honors on this year's St. Mary High school baseball team.

Shriver, who tied for top honors as a sophomore and was the sole leader last year, collected 16 hits in 37 trips to the plate.

Jim Koerner, a junior who was out for the squad for the first time this spring, garnered runnerup honors with a hefty .408 mark on 20 for 49.

Bill Becker, who played at almost every position including pitcher and catcher, recorded a .356 average and Bob Jensen chalked up a .304 for other .300 plus records.

Becker led the pitchers with a 3-3 record. Koerner had 1-0, Bob Jensen 1-4 and Tom Hanson and Jim Rueckl 0-1.

Cracks 2 Homers
Hanson had two homers and Dick Walbrun and Phil Keller each belted one.

As a team the Zephyrs made 111 hits in 411 trips to the plate for a .270 average. The opponents collected 97 hits in 408 tries for a .238 mark. St. Mary was outscored 91 to 80 by its foes.

St. Mary, which for the second year completed in the Fox River Valley conference with Manitowoc, Oshkosh and Fond du Lac, closed with a 5-9 overall record.

In league play it won three of four from Fondy, split even in the four games with Manitowoc and lost all four to Oshkosh.

Outside the league, the Menashans were beaten by Hortonville in an exhibition and bowed to Stevens Point Pacelli in a tournament game. An earlier game against Pacelli was postponed because of snow.

Seven of the losses were by three runs or less. The record showed three 1-run reverses, a trio by two tallies and another by three.

The averages:

Renoir Still Life Comes Back to U. S. Collector

London — A London gallery has returned a Renoir still life valued at 6,000 pounds (\$16,800) to American collector Erwin Goldschmidt. The

Nazis had looted it from his late father's collection. The painting was one of a pair the Nazis seized after the elder Goldschmidt fled from Germany. It was sold in 1941 in Berlin and passed through several dealers' hands before it reached London.

than half of the retailers surveyed are investing 80 per cent or more of their ad budgets in newspapers; more than three-quarters are allocating 80 per cent or more to newspapers. It is evident that these merchants are relying on their newspapers to bring them the sales increases they confidently expect."

To help gain this increased business, 39 per cent of the retailers surveyed plan to increase their ad budgets an average of 10 per cent, while 54 per cent will maintain their summer ad budgets at last year's level. Seven per cent expect to decrease their ad budgets for June, July and August.

Promote Outdoors

"Outdoor Living," one of the major economic and cultural trends of recent years, is being counted on as a summer sales booster by many of the merchants surveyed. Eighty-five per cent of the retailers plan to use "outdoor living" as a promotional theme in their advertising; 26 per cent of the merchants will use it as a dominant theme.

Merchandise items that will receive strong promotion are outdoor furniture, sportswear and casual wear and outdoor cooking equipment. The retailers indicated they are counting most heavily on summer clothing—sportswear and casual wear—to boost store sales volume this summer.

Most summer clearances will be held the same time as last year with 71 per cent scheduled for July, 10 per cent for August, 8 per cent for June and 2 per cent in September. Of those retailers indicating a specific date for their clearance sales, 38 per cent have set the dates before July 15th and 62 per cent merchants have scheduled them later.

Kaukauna — Anthony Ver Voort, 25, 415 S. Monroe street, Little Chute, pleaded guilty of failing to stop for an arterial when arraigned before Oscar T. Jahns, justice of the peace, Wednesday and was fined \$10.

Ver Voort was arrested after being involved in an accident. He will have six points charged against his driving record.

On a Clear Spring Day, the sun's rays are hot enough to fry ham. Woodlawn school fifth and sixth graders learned. They used a large plastic lens to focus the sun's rays on an asbestos crucible, where they put a piece of ham. The temperature gets up to 2,000 degrees, so they are told to be careful with it. They also have used the solar furnace to burn wood and fuse metal. Cooking ham are, clockwise from front, Gary Wieseler, 520 W. Sunset avenue; John Stevens, their teacher; Brian Neuman, 2030 N. Braves Lose On 2 Homers In Eighth, 4-1

Williams Credited With Win

By The Associated Press
Stan Williams, the big right-handed reminder of last year's pennant failure, still is haunting those Milwaukee Braves.

It was Williams who beat the Braves with three innings of hitless relief in the final game of the playoff for the 1959 National league flag. And in his first run-in with Milwaukee since then, the 6-foot-4, 230-pounder beat the Braves, 4-1, Wednesday night, choking off their spurt toward the top with the help of a pair of 2-run, eighth-inning homers by Wally Moon and Duke Snider.

The third-place Braves dropped 4½ games behind league-leading Pittsburgh.

Only Three Hits

The Dodgers, blanked on five hits for seven innings by Carl Willey, tied St. Louis for fifth place as Moon unloaded against losing reliever Don McMahon (1-5), and Snider tagged Bob Rush.

Williams allowed just three hits, two by Wes Covington, before being lifted for a pinch-hitter in the eighth. He walked none and struck out seven giving up the run in the first inning on Billy Bruton's double and Ed Mathews' 1-out sacrifice fly.

With one out in the eighth, Willey gave up his third walk.

Indians Barge Past Orioles Into Lead After Double Win

By The Associated Press

Cleveland has barged past Baltimore into the American league lead, and Woody Held, the low-average belter, has been the Indians' hatchetman.

The power-packed shortstop, batting .257 and benched in an 0-for-15 slump 10 days ago, drove in six runs and brought home the clincher in both games for an 8-7 and 5-2 twin-night sweep at Boston Wednesday night.

That made it four in a row and nine out of 12 for the Indians, who moved ahead of Baltimore by 10 percentage points. Detroit and Charlie Maxwell spanked the "Baby Birds" for the second night in a row, 2-0, in a double 3-hit duel between Tiger Frank Lary and Jack Fisher.

Four Home Runs

The New York Yankees smacked four home runs behind Bob Turley's 3-hit pitching and beat Chicago, 6-0, moving within a half-game of the third place White Sox. Washington defeated Kansas City, 8-6.

Cleveland made it 5-0 over last place Boston on Held's grand slam, his eleventh home run, in the sixth-inning of the nightcap.

Gary Bell (4-4), who had lost three in a row, won the second game with a 3-hitter, blanking the Red Sox on one hit until the seventh inning. Jim Perry (6-2) won his fifth

Demons Extend Victory String To 8 Straight

Sioux City Trims Braves on Nevers' 6-Hitter, 6 to 1

By The Associated Press

Des Moines continued its drive to gain respectability in the Three-I league race Wednesday night by rolling its victory string to eight with 3-0 and 1-0 victories.

It is the longest winning streak of the league season, exceeding the recent Fox Cities total by one.

The Demons, who 10 days ago were 8 games from the lead, now find themselves only three out after Bob Bubash and Jack Kerrigan wielded the whitewash at Burlington.

Hitless Until Eighth

Bubash pitched a 1-hitter in the 7-inning opener while Kerrigan's masterpiece was a 2-hitter with Burlington hitless until the eighth inning.

Meanwhile, Cedar Rapids and Fox Cities remained tied for the league lead.

Gordon Nevers allowed six hits as Sioux City beat the Braves, 6-1, with Jim Tanner's homer in the second inning providing the last run he needed. The Soos are only one game from first place.

Lincoln whipped Fox Cities, 11-4.

Green Bay's defense betrayed pitcher Ric Warren again and he wound up a 2-1 loser to Topeka, which scored unearned runs in the third and sixth innings. Warren, who has completed all his eight starts, suffered his third loss against five victories.

Topeka is only 1½ games behind the leaders.

NOTES and NOTIONS

Johnny VanderMeer, Topeka manager and author of major league baseball's only double no-hitter, says the weather has been the biggest factor in the Three-I league race to date. As he sat in a Goodland field dug-out after a typical 1960 pre-game rain last weekend, "Vandy" noted that frequent postponements as well as playing games under unfavorable conditions have been hard on young pitchers and have kept many batters from attaining their potential. He added that a combination of make-up contests and a longer schedule (140 games instead of 126) will cram almost an extra month's games into teams' slates this summer. This will place extra burdens on mound staffs and may help decide the pennant race, according to VanderMeer. Topeka already has played 10 more games than Burlington and nine more than the Foxes. "Vandy" admits that some of Topeka's home games have been played in rather miserable weather because the Reds wanted to avoid piling up doubleheaders, if at all possible. Because of the disparity in the number of games played, Topeka won't go for a split season, the manager says. (Actually, the league voted last winter against splitting the '60 season, but a new vote isn't out of the question should one or more clubs raise the issue anew). Adverse weather has also been responsible for a 50 per cent drop in Topeka attendance, VanderMeer maintains. In 1959, the Reds drew the third highest total in the circuit.

The Fox Cities Foxes are the closest thing to a stand-pat club in the league this year—taking over the distinction Des Moines held in 1959. Sixteen of the 19 Foxes who started the season are still on the roster. The only changes have seen Frank Montgomery, Chuck Symeon and Arne Thorsland join the team and Hugh Springer, Jerry Alford and Ken Tippery depart. Other clubs have done much shuffling, with some getting stronger right along. Among the latest Green Bay acquisitions, for example, is shortstop Domingo Carrasquel, younger brother of Chico, who faded from major league stardom almost as suddenly as he arrived.

Speaking of Springer, the right-hander last week came within two outs of pitching a no-hitter for the Class C Stockton club. A Modesto batter tripled in the ninth to score a mate who had walked. Springer was optioned out because the Foxes had too many starters ahead of him at the time, and Baltimore wanted him to get all the work he could.

The 1960 Foxes are executing double plays at a

White Sox Front Office Is Without A Comiskey for First Time Since '01

Chicago — There wasn't a Comiskey to be found today in the front office of the Chicago White Sox. That hasn't happened since the club was founded in 1901.

Charles A. "Chuck" Comiskey resigned as executive vice president of the American league ball club Wednesday. His letter expressed no bitterness but wished Manager Al Lopez, the play-

ers and the club success. Comiskey, who owns 46 per cent of the White Sox, will remain on the board of directors. He said he had no immediate plans, but added:

"I'm going to keep my stock. All I'm going to do right now is get out of the office for a while and spend some time with my family."

White Sox President Bill Veeck, leader of the group

which bought majority control of the club from Comiskey's sister, Mrs. Dorothy Rigney, said: "It's a complete surprise to me."

"I have mixed emotions over learning this," Veeck said. "I regret there no longer will be a Comiskey name in the front office of the White Sox, but if we can't operate in complete harmony it may be just as well."

Don Jabas and Don Strutz, of Bull's-Eye Country club, Wisconsin Rapids.

The eleventh annual tourney has drawn a record entry of 80 golfers (40 teams). This exceeds by one team the entry list in the 1959 meet on the Fox Valley club course.

Strutz and Jabas won, 3 and 2, over West Bend's Coley Griffin and Frank Engelbrecht in the '59 finals.

The contestants will shoot 18 holes of qualifying golf Friday. The 16 lowest-scoring teams will play in the championship bracket, starting Saturday. The next 16 will make up Class A. The finals will be played Sunday.

Twelve Fox Cities area twosomes are entered.

Wayne Hull and Russ Torgerson, of the Fox Valley won

Giants and Pirates Triumph on Relief Of Jones, Face

Pittsburgh Edges Cubs, 5-3, To Retain 1-Game Lead in NL

(From AP Dispatches) shelled Pirate starter "Vinegar Bend" Mizell from the mound in the seventh, then loaded the bases with one out against Mizell's replacement, Fred Green.

In came Face for his twenty-second appearance in 47 games played by the Pirates this season. Face got Ernie Banks to pop out and then nailed Ed Bouchee on a bouncer to first to end the inning. The Cubs had three runs, but Face blanked them the rest of the way.

Mizell picked up the win, his second of the season and second against the Cubs. The former Cardinal hurler has been beaten three times.

The loser was Bob Anderson, (2-2) the first of six Cub pitchers. Anderson gave up the first four Pirate runs Bob Skinner and Dick Stuart hit home runs for the winners.

St. Pius and Trinity (3-0) remained undefeated in Tuesday in the fifth. Wilmer Mizell, evening's Appleton Recreation (2-3) had a 3-hit shutout for department Church league six innings.

All the scoring came in the Trinity rolled over Congregational 17-4, as winner Jack all three runs were earned. Rademacher hurled an 8-hit, Ed Bressoud's 2-out, 2-run sinter. Dave Trinnud socked glo did it for the Giants, who three hits in four trips, in had been held to four hits for including a home run, for Trinnud's eighth innings by loser Jim O'Toole (4-5). Cincinnati, hitless.

St. Pius downed St. Joseph, for 7 1-3 innings against Mike McCormick, scored on singles 11-7. Tom O'Hearn went 4-for-4 to lead Pius. The losers collected only four hits, two by Kasko and catcher Bob Merlin Heim.

in a row in the opener, although giving up "Pumpsie" Green's first major league slam and solo homers by Ed Sadowski and Pete Runnels.

Johnny Klippstein saved it with three innings of hitless relief.

Losers Opener

Reliever Mike Fornieles (2-1) lost the opener and Dave Hillman (0-2), who also gave up a home run by Jimmy Piersall, dropped the second game.

All of the Yankees' runs scored on the homers, Mickey Mantle hit two, for a season total of 10 and a career total of 290. Roger Maris, the major league leader, matched his 1959 total with No. 16, and Hector Lopez belted his third Turley (3-1) gave up nothing but singles in producing his first route-going performance since last Aug. 8. He walked four and struck out one.

Bob Shaw (5-5) lost for the first time in four career decisions against New York.

Three runs in the eighth, triggered by Julio Becquer's 2-run single, did it for the Senators and winning reliever Don Lee (2-1). Trowbridge (1-2) was the loser in relief.

Eddie Machen Wins Decision Over Johnson

Chicago — Eddie Machen the No. 4 heavyweight contender, went through a lot of motion without much progress as he gained his thirty-fourth victory against two defeats Wednesday night.

Machen gained a unanimous decision over elusive Alonzo Johnson in the Chicago stadium.

The nationally televised bout produced a lot of swinging and swaying, but nobody came close to being hurt.

"He just clinched a lot and was going away quite a bit," said Machen, who wrestled Johnson to the canvas five times but never could land a solid punch.

Referee Weissman called it for Machen, 49-45, while the two judges Jim McManus and Bill Doty voted for Machen, 47-45, and 47-44, respectively. The AP card had Machen ahead, 49-42.

Wouldn't Help Us

"They'd never give us anybody who had a chance to help us," Dressen said.

"He can still pitch up here if you don't overwork him," the manager added, "He kept the Dodgers up there the first half of last season. Then he just wore out. They just worked the pants off him."

Dressen also confirmed that the Braves made a bid for Don Elston of the Cubs.

The bargaining collapsed, he said, when the Cub pitching staff began to round into form and Chicago raised the price.

The Braves have another hope, Dressen said, but he wouldn't name the player.

Dressen said there's a chance the pitcher they want may turn up on the waiver list and if he does, the Braves are ready to move.

Riverside Nine Drops Sammy's From Lead

Pond's remained unbeaten with a 10-0 thumping of One Hour. Les Dietzen yielded just three singles, two of them infield hits. Dugout topped Mullin's, 11-1, behind the 3-hit pitching of Vern Kroll. Don Schulz slapped a 3-run homer for Dugout.

Bleier's stayed in a first place tie with Pond's by virtue of a 20-2 rout of Valley Ready Mix. The victors had just eight hits but received 22 bases on balls. Winner Bud Werner twirled a 5-hitter. Lou Horn had three hits — including a grand slam home run.

putting Jim Gilliam on first. Manager Chuck Dressen sent Willey to the quiet of the dressing room. McMahon was called from the safety of the bullpen to the madness of the mound.

Moon sliced a home run, his fifth, over the left field screen in the Coliseum to put the Dodgers ahead, 2-1.

Obviously disturbed, McMahon walked the next batter, Norm Larker.

Then everybody started to walk: Dressen to the mound, McMahon to the locker room and Rush to the bullpen.

Snider hit a home run, his seventh. The score was 4-1.

Rush struck it out and Frank out struck out Frank Howard and

retired the side by getting Charley Neal on a grounder. But the damage had been done.

The loss dropped the third-place Braves a full game farther back in the National league race. They now trail first-place Pittsburgh by 4½ and second-place San Francisco by 3½.

Has 5 Defeats

The defeat was charged to McMahon, who has five of them against a single victory. Dodger starter Stan Williams took the victory. He's 4-0.

Williams worked eight innings before he was pulled for a pinch-hitter, allowing only three hits. Reliever Clem Labine gave up one in the ninth.

Along the way, Williams fanned seven Braves and didn't give up a walk. After Milwaukee scored its run in the first inning, Williams retired 12 in a row before Covington singled. Then he retired eight more in turn before the next Milwaukee hit, another single by Covington.

Bill Bruton opened the game with a slice double off the screen. An infield out and

Eddie Mathews' sacrifice fly sent him home.

Tonight's Lew Burdette, 4-2, will be opposed by Don Drysdale, 4-7.

Del Baker, Right, interim manager of the Boston Red Sox, calls to a player as he huddles with Coach Rudy York during a pre-game warmup in Fenway park Wednesday night before a doubleheader with Cleveland. Bill Jurgens was relieved of command for health reasons. The Sox dropped both Wednesday games.

Pacheco Dies Of Injuries

Puerto Rican Is First Pro Boxer To Succumb in '60

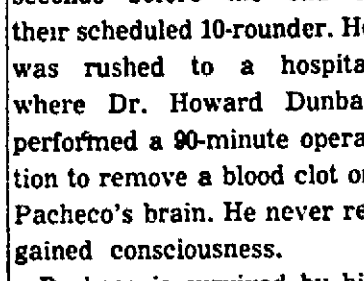

New York — (U) — Tommy Pacheco, a 20-year-old Puerto Rican fighter injured critically in a boxing match with Benny Gordon at St. Nicholas arena Monday night, died early today at Roosevelt hospital.

Gordon had stopped Pacheco just 11 seconds "before the end of their scheduled 10-round. He was rushed to a hospital where Dr. Howard Dunbar performed a 90-minute operation to remove a blood clot on Pacheco's brain. He never regained consciousness.

Pacheco is survived by his widow and a young son.

In his fight with Gordon, his thirteenth as a professional, he had suffered no hard blows nor had been knocked down the fateful tenth round.

Pacheco's death was the fourth in New York ring history.

Gillick Is His Own Toughest Boss in Area of Conditioning

faster pace than the '59 club, and one of the reasons for it is the speed with which second baseman "Photi" Anthony gets away the ball on the pivot. The secret, according to the dark-haired infielder who wasn't even a regular when the season opened, is not to close the glove tightly after taking the throw. Instead of having to dig the ball out of the protected pocket, he merely sweeps across the open glove and gets away the relay to first.

Anthony

Foxes pitcher Pat Gillick is his own toughest boss in the sphere of conditioning. Just prior to each pitching turn, Gillick goes through about a 5-minute ritual of running and calisthenics. Before Monday's game, Manager Earl Weaver told several other pitchers that Gillick's self-imposed exercises not only keep him in top shape but probably will lengthen his baseball career. Slightly more than two hours later, Gillick put the finishing touches on the Foxes' first shutout of the season.

One year—and a change in affiliation—can make quite a difference. Just a year ago today, the Foxes (of the Washington chain) had a 13-23 record and were 11 games off the pace.

Burleigh Grimes, part-time Oriole scout and one-time pitching great, believes that "Boog" Powell's size (6-5, 235 pounds) probably has something to do with his relatively slow start as a Three-I league power hitter. "Big guys develop more slowly than the little ones," said Grimes, "but once they arrive, look out." He cited Hank Greenberg as an example. When Burleigh first saw Greenberg, he looked like anything but a big league prospect.

The mortality rate of veterans in the Washington farm system is higher than ever this season. The latest former Foxes to be released by the Class B Wilson club of the Carolina league are infielder Don Dantoni and outfielder Hank Marockie. And, Ron Bloodworth, a 1958 Fox who pitched a no-hitter last year for Lincoln (a White Sox farm) is out of baseball in 1960.

took over first place in the American league.

Boston has lost five straight and 22 of its last 27.

Coach Baker became manager pro-tem Wednesday after Jurgens was relieved of command for reasons of health. Jurgens underwent a physical examination by two doctors who said he was under heavy strain.

There was no firing, no release, no resignation.

ARD Boys' Baseball Play Begins Monday

Play in the Appleton Recreation department's boys' baseball program begins Monday with games in all three leagues.

A total of five clubs are set in the Major Boys league. The maximum age limit is 17 and under as of June 14.

Sixteen clubs, in two divisions, are ready for the start of Minor Boys league play, which is for youths 14 and under. The Cub boys wheel, for youngsters 11 and under, has two divisions of seven teams apiece.

Major Games

Major games will be played at Goodland field, Minor contests at Wilson No. 1 and No. 2 diamonds and Cub contests at Linwood and Erb park. One opening game in each division is slated for Monday.

Opening Major league games, with managers names are: Giants, Terry Hostetler, vs. Reds, Bill Stushek; Braves, Tom Besch, vs. Dodgers, Jim Muck; and Cubs, Bill Fulcer, vs. Reds.

Minor league, American division, openers pair: Yellow Cab, James Wilz, against Grishaber's, Ralph Schultz; UCT, Jack Schultz, vs. Junior Optimist, Bill Murphy; Krambo, Dave Krueger, vs. Elm Tree, Dick Weisgerber; Police, Paul Schumaker, vs. Fountain Lumber, Dean Mueller.

Minor, National division, openers include: Voecks, Jim Tirpak, vs. Badger Printing,

ball but couldn't hold it — and two runs scored.

Selinger grounded one right at second baseman Frank Montgomery, but at the last instant, the ball hit a pebble and hopped into right field for a run-scoring single.

Al Wiess singled home two more runs in the Lincoln fifth. The Foxes got one back in the fifth on two errors by Weiss and a passed ball.

Hunt Battered

Lincoln iced it in the seventh by increasing its lead to 10-2 at the expense of Hunt. The 19-year-old right-hander failed to retire any of the five batters who faced him — four singled and one walked. Lefty Stepanovich came in to stem the tide and stayed around for the eighth and ninth, showing up to good advantage after having been highly ineffectual in earlier stints.

The Foxes used five walks to compile their final two markers in the eighth. The first three passes were charged to Kimball, and the rest to reliever Jerry Moeller. After failing to get the ball over the plate in his first nine pitches, Moeller settled down to strike out four of the game's last five batters.

OPEN EVENINGS!

Scattered Showers and Thundershowers are expected tonight from the central and southern Rockies and the plains states to the western part of the Mississippi valley and as far south as Texas. It will continue warm in the Virginias and on the east Gulf coast while warmer readings are forecast for the upper lakes, Ohio and Tennessee valley and southern Idaho.

Promise of Fair Skies Comes True

The weatherman has been true to his word. He promised sunny skies and rising temperatures during the week. The temperature is rising. The sky is clear. Temperature at 10 a.m. today was 74, two degrees lower than Wednesday's high. More warm sunny weather is seen through Saturday. Some isolated thundershowers are expected late tonight. A light rain fell over sections of the country southward from the Canadian border to the Rio Grande river today. It was in this same general area Wednesday that the weather played havoc. At least one and possibly three more tornadoes raked portions of Texas. Hailstones, reportedly the size of baseballs, and torrential rains beat down on the western part of the state Wednesday. Several persons were injured when their car was upended by a twister after it had stalled in the rain. The Chicago weather bureau reported several tornado funnels were sighted Wednesday in Kansas during a heavy downpour.

Driver Hurt in 2-Car Accident

James Cotter, of 1522 N. Oneida street, was injured in a 2-car accident at Lawrence and S. Walnut streets about 11:20 p.m. Wednesday. Cotter's automobile, police said, was following one driven by Roger T. Gruska, 18, of 1435 E. Gunn street, east on Lawrence street. When the Gruska machine stopped for a left turn, according to police, Cotter's car struck it in the rear. Cotter was taken to St. Elizabeth hospital in a squad car.

Charge Reduced; Man Fined \$75

Vincent J. Bressers, 35, of 607 S. Christine street, was fined \$75 in municipal court when he pleaded no contest to a charge of reckless driving. Bressers was arrested April 25 by the state patrol and charged with drunken driving. The patrol requested the charge be reduced. Bressers will lose six points against his driving record.

Three Reserve Units To Hold Open House At Training Center

Personnel of three Appleton U. S. Army reserve units will be on hand from 3 to 5 p.m. Saturday to demonstrate and show weapons and equipment at an open house at the reserve armory at 1824 Ballard road. The open house is scheduled in connection with the flag day parade earlier in the afternoon. It is to give residents an opportunity to see training facilities and material reservists use. Units sponsoring the open house are the 281st combat engineers, 274th infantry, BCT and 359th ordnance DAS.

Sokolsky Advises Khrushchev to Number His Days as Head of State

BY GEORGE E. SOKOLSKY
New York—Tovarisik Chair-
man Khrushchev:
It is a pity that you do not understand this country. It would save you from so many mistakes if you did. I have read somewhere that your dear wife is a specialist in American history. You might learn

something from her. You act like a brute which is probably because you were not brought up to be a gentleman. You abuse. You vilify. You shout, you use vulgar language. You act like a country bumpkin with a skinful of vodka. It is a pity because cunningly you rose to a high position in the world—a position for which you are neither by breeding nor training fit. Your experience has been that of a ward politician maneuvering his way upward by trickery, fawning, cajolery.

boy. You can turn on a kopek. You can change your mind at a second's notice when things go wrong. It is truly wonderful how you outlasted all your comrades. The fools, they trusted you. So, you do not like our President Eisenhower? Did anybody ask you? We do not elect a president to please you. That is for Hungary, Czechoslovakia, East Germany and even Poland. You cannot vote in this country and your foul voice will not sway public opinion except to disgust everybody. You do not like Lyndon Johnson among the Democrats because he has a sense of honor and dignity. Truly, Nikita, we do not give even one damn whether

you like or do not like. In fact, if you continue to insult like, the American people will quickly repeal the 22nd amendment and elect him to a third term. You like, you say, dead men like Washington, Lincoln and Franklin D. Roosevelt. Another idiot. Washington and Lincoln would have shown you the back of their hands and as for Franklin D. Roosevelt, your old boss, Stalin, did him in at Yalta because Roosevelt was obviously dying. So was Harry Hopkins. You listen to American communists and to such old men as Cyrus Eaton, who seems to regard himself as superior to the entire American

government. Nobody takes him too seriously here. There was an idiot named Adolf Hitler who thought that he could interfere in the affairs of this country. The whole American people turned on Hitler, including the 40,000,000 or so descendants of Germans who settled here. We were one people against Hitler and your big mouth and bad temper are forcing us to be as one man against you. Bad Reputation. Nikita, every time I write that you are a Ukrainian I receive letters from Americans of Ukrainian origin demanding to know why I insult them by relating their motherland to you, whom they regard

as a beast. It is a very bad reputation that you have. You are making like Eisenhower a beloved man, more beloved than he ever was. You are causing Americans to hate you as they hate anything that is foul, ugly, miserable, horrible to behold. You ought to look at the pictures they took of you in Paris: Only Dostolevsky could describe such a character as you are—a congenital scoundrel. It is said that such a country like Russia has to have such a man as you to lead it. Our slogan is: "God bless President Eisenhower!" He will outlast you, for your
